**LITTLE BENNY'S NOTE BOOK**  
By Lee Pape

Me and Puds Simkins was standing down at the corner and Mary Watkins was standing on her front steps looking around and not waving to us, and I sed, Look at her, so knows we're down her all rite, she's jest pretending she dont, look at her.

Sure, lets wawk rite past her without speaking to her jest to show her we're as good as she is and maybe better, G, who's she, enyways? sed Puds.

Sure, who's she, wat the heck, I sed, come on, lets wawk rite past her as if we didnt know she was living, come on.

Well wait a minnit, wait a minnit, I tell you lets wat, you wawk past her first without even looking at her, and then Ill wawk past her rite in back of you, that will make it even stronger than if we wawked past her both together, sed Puds.

Sounding like the best idee yet, and I started to wawk up the street and Mary Watkins kepp on standing on her front steps in her red coat and hat looking even more bewty looking than usual, and I wawked rite past her looking up in the air as if I didnt care who she was, thinking, G, she wont think she's so grate after me and Puds wawk past her like this.

And I wawked all the ways to the corner without looking around and then I looked around to see if Puds had wawked past her yet and wat was he doing but standing there tawking to her as if he never had any idee of wawking past her. Wich be properly never had, me thinking, G wize, holey smooks, wats you know about that, good nite, heck.

Proving all may be fair in love and war but that dont make it any more cheerfull.

**A Hundred Carloads Were Added to Our Stock**

But mere bigness is poor analysis of a stock—we perforce must be tremendous buyers, because of our extensive business in hotel furnishing. And here is the way large buyers of furniture go into the matter—

**We Display the Inner Construction of the Furniture Right Here in the Store**

Will you, who are furnishing a room, an apartment, a large house, serve yourselves, as great buyers of furniture do? It means little to claim "all-hair filling"—there are too many grades. An "all-wool" suit of clothes may be shoddy in part. Compare! Study "periods" in furniture—hold to good lines as well as to good construction. This large business is built on the public's appreciation of real service—the service that means to us the giving to you of—
