

Leonard Successfully Defends Lightweight Championship Title in Busy Fifteen-Round Battle

LEFT HOOK ON CHIN IN 11TH ROUND LANDS KANSAS ON HIS BACK

Battle Proves Stunning Surprise to Spectators, Who Jam Madison Square Garden and Pay \$114,518 Hoping to See Rocky Kansas Rocked to Sleep

By ROBERT W. MAXWELL Sports Editor Evening Public Ledger

New York, Feb. 11.

A LEFT hook delivered with terrific force, which landed flush on Rocky Kansas' chin in the eleventh round, saved the lightweight championship of the world for Benny Leonard last night. It was not a knockout or anything like that, but Kansas was knocked flat on his back for the count of nine. It was the only time either contestant visited the canvas, and that one wallow was enough to give Leonard the decision at the end of fifteen rounds.

The battle was a stunning surprise to the huge gathering which packed and jammed Madison Square Garden. The spectators contributed \$114,518 hoping to see Rocky rocked to sleep, but the Buffalo lightweight did not look like a fall guy in the first ten rounds. Had the bout ended then the judges and referee would have had a tough time in keeping the title in New York.

Leonard weighed 134 1/2 pounds at 2 o'clock yesterday afternoon. He proved to every one concerned that he is a legitimate lightweight; but many now have their doubts as to whether he could have been able to defend his title successfully at that weight had he met a classier fighter last night.

Benny was not in his old-time form. Instead of the cool, calculating, confident boxer who gradually wore his opponent down and finally crashed him to the floor, he was a light-stepping, dancing, in-and-out, hit-or-miss performer like one of those powder-puff punchers who gets by through the use of his head and legs—principally the latter.

For ten rounds Benny was a very busy person. He did all of his traveling backward, and occasionally found it difficult to keep out of the way of the swishing right and left swings that were hurled haphazardly in his direction. The Benny Leonard of a year ago could have stepped in and scored a bulls-eye before the battle had progressed six rounds. There were many openings, but Benny kept away and fought on the defensive.

AND at the end of the tenth round some of the experts had given Kansas six, Leonard three and one round even. Others said Kansas had eight rounds to his credit. However, the left hook wiped everything out and they started all over again. Never will Benny speak slightly about a left hook. He will think of it every time he remembers he still is champion.

Benny Planned Battle Carefully

BENNY evidently planned his battle carefully. He knew Kansas was a very tough young gentleman and he was not at all sure of his own strength. Therefore, he assumed the defensive from the start, and it took only a portion of the first round for the spectators to get the idea that the champ had a man's size job on his hands. In other words, he had bitten a mouthful which might be difficult to swallow.

Kansas looked like a healthy blacksmith on a vacation when he stood beside Leonard as the referee mumbled his final instructions. His broad shoulders, his finely molded budding ear, which stood out at a rakish angle, his overhanging brows with drooping, fierce, black eyelashes, and his pug nose with a little knob on the end gave him the appearance of a gent ready to paralyze of raw meat—the rawer the better.

Leonard was thin. His face was well drawn, his cheekbones were prominent and his chin seemed lean and angular. At the start both sparred lightly, Kansas doing the rushing and all of the missing. He wasted many wallows with both hands, and Benny started on his backward journey. Neither did any damage, although Leonard caught Kansas coming in with a sock on the chin near the end of the session.

Benny still was careful in the second and it could easily be seen that he was taking no chances. Rocky landed a left to the face and Benny's mouth began to bleed. This was strange and unusual, but not entirely unexpected. Leonard was not at his best and Kansas was. Leonard was on his toes, stepping in and out, while Kansas, flat-footed, nursed him. Benny did not lead very much in the third chapter, waiting for Rocky to come to him. The Buffalo boy did this very thing, which helped the champion. He opened a cut on Kansas' nose in this session, and it gave the spectators their first chance to cheer.

Leonard was saving his strength and avoided the clinches as much as possible. Rocky was too good at infighting and was getting all the best of it when they locked arms. Rocky busted him in the nose and the crimson smear appeared on one side of his face. Benny's nicely parted hair was all mussed and he looked like a guy about to finish second.

BALL CLUBS FAVOR DAYLIGHT SAVING

Philadelphia Association to Defend Measure at Council Hearing on Tuesday

BIG HAND FOR BILL ROPER

THE Indian Room of the Hotel Walton was jammed last evening with baseball enthusiasts. There were all kinds of devotees of the great national game in attendance, officials, managers, players, rosters, umpires and what not connected with the sport. They numbered over three hundred, but the teams represented were thirty-eight in number and there were many present who have not yet become members.

These fellows came to see and they were showing the biggest meetings held in the interest of baseball that has possibly ever been held within the confines of William Penn. Numerous out-of-towners in attendance to learn if they were to be admitted and even Frank Poth, who managed the old Chester champions of the Delaware County League, strolled around with the boys.

Bill Roper and Howard Donovan provided the evening's honors. The former by the speech he delivered in support of the measure, and the latter by the snappy pace at which he kept things moving. The organization is indeed fortunate in securing a man of Mr. Donovan's ability in taking charge.

To Work for Daylight

Mr. Roper was greeted with applause when he started, but was tendered an ovation when he finished, and his talk was snappy and to the point. After relating a few incidents in connection with athletics, he impressed upon his audience the advantages enjoyed by America in the recent World War by having millions of boys who were in the best shape due to their participation in athletics.

During his speech the subject of daylight saving was introduced, and it was brought out that there may be some opposition to the measure in Councils next Tuesday. Roper said he thought it would be a tremendous step backward to change a law that has been of such wonderful benefit to the community, as it gave many men an opportunity to get out in the open and become better citizens both mentally and physically.

A hearing has been asked on the bill, and a committee headed by Arno P. Movitz, will be present to represent the association. He is a local attorney, who volunteered his services as a lover of sport. Mr. Roper said that several hundred men were present; they represented about 100 teams, and the association has a membership of over a hundred thousand.

TEDIOUS PASTIME—LISTENING TO A FRIEND'S STORY

"The Hardest Battle of My Ring Career"

Sailor Freedman Out on His Feet Almost Throughout His First Match

TOOK AWFUL LACING

By SAILOR FREEDMAN THAT scrap I had with Lew Tendler at the Garden in New York City recently was a mighty tough battle for me—it came pretty near being the hardest of my career.

SAILOR FREEDMAN

It came about this way, several years ago: After being discharged from the navy I used to meet a bunch of fellows in a poolroom in Chicago which was owned by a brother of my present manager, Hirshe Miller. Usually we would talk boxing, and finally one night I said that I had done some mitt work while in the outfit and thought I could whip a lot of the featherweights around.

Hirshe's brother thought I was cuckoo, but he paid no attention to me. However, I insisted again after that night that I would like to get a bout, until Hirshe's brother said: "All right, kid, come on down into the cellar and see what you are made of."

Little did I think that Miller himself, a 190-pounder, was going to square off at me. He certainly loaded me a lacing, but I figured the crowd wanted to see whether I was game and I kept wading in, although slugged pretty hard. After it was over I said to Hirshe's brother said: "You'll do, I think."

But Miller's experimental process was not over—not by a long shot. He took me over to a gym where Charley White was training and asked him to try me out. Charley did. He socked and rocked me all over the place—and White can hit. He gave me the left side of my head.

Still I had not satisfied. Jack Britton was in Chicago and he was asked to come to New York to see me.

Bronder Heaves Javelin 186 Feet in Practice

George Bronder, Brooklyn youth, and one of the athletes on whom Coach Robertson is depending for the intercollegiate yesterday unofficially broke a record on Franklin Field. Shortly after the javelin competition had concluded, Bronder in teaching Hamer and Papworth how to handle the stick took a trial heave. The throw seemed longer than usual and on measuring it was found to be 186 feet. This is three inches better than the relay games record which was created by Bronder, then a freshman, last April.

to work out with me. Besides battering me around pretty much Britton hit me under the chin with a right hand uppercut that lifted me three feet off the floor, but I wasn't knocked down. And then it was Leonard's heavy come-pelition and then these opponents came around a bit. Leonard complied with Miller's wishes.

After the Leonard lambasting I learned that I had made good enough to warrant a bout. And this army fellow was brought along as a beginner. He weighed 135 pounds and I tipped the beam at 124.

Out Standing Up Almost as soon as the bell rang Army knocked me out sending me with a right on the chin and before I had a chance to fall he brought me to with another swing on the jaw. Just before the bell ending the round another wallow put me in a semi-conscious condition, and I didn't know a thing until I found myself walking from the clubhouse after the bout.

The next day was told that I had been carried to my corner after the first round, and in order to get me to answer the bell for the second, some jabbed me with a knife. I jumped from my chair, they told me, and fought like blazes.

Before the start of the sixth and final round, I was given to understand that was in a daze again, in order to finish the bout. Miller, my chief handler, punched me on the jaw. This brought me around and I finished the bout, but I didn't know what it was all about.

Tendler knocked me down four times in one round and I was pretty shaky until the end of the bout. In the match with Army, I succeeded in keeping my feet, but I have had Hirshe tell me that never have I taken such a trouncing as I did in that first battle of my ring career.

Pinky Mitchell will tell about the hardest battle of his ring career in next Tuesday's edition of the Evening Public Ledger.

Yale-Harvard Tennis Team to Visit England

Cambridge, Mass., Feb. 11.—A visit to England next July by a joint tennis team from Harvard and Yale is under negotiation, it was learned here. The trip will be a return of the kind last summer of a team from Oxford and Cambridge Universities. In the international match, held at Newport, R. I., last July, the Americans won, five to four.
