

Strawberries Are Seasonable in South and Recipes for Them Come to Mrs. Wilson

They Form a Pleasant Forecast of Warm Days, When the Housewife Here May Make Them Into New Concoctions

By MRS. M. A. WILSON

WHILE February snows are covering Northern gardens, the housewife in Florida is picking strawberries. The early spring vegetables are also coming to the table, and have a flavor that cannot be found in the can. Garden or English pea, as the folks of the Palmetto State call this vegetable, is a delicately tender, and full of flavor, and a mass of these little balls of emerald green, seasoned nicely with a little butter, salt and pepper, is a dish that is fit for the gods.

By an urgent writer from Louisiana, "I have a recipe for a strawberry salad, which I have had for years. It is a very nice salad, and I have had it many times. I have had it at the home of a friend, and it was very much enjoyed. I have had it at the home of a friend, and it was very much enjoyed. Things You'll Love to Make

Wooden-Button Girdle.

Most of the new Parisian gowns are adorned with a novelty girdle. Here is a very smart-looking WOODEN-BUTTON GIRDLE. For the double strands use ribbon or braid, one or one and a half inches wide. The color will depend upon the color of the frock with which it is to be worn.

One completed 35c apron is sketched—the cross stitch work shown is quite easy to do, the unbleached muslin is of excellent quality and the blanket stitching which finishes the apron gives a pleasant note of black for contrast.

Fudge aprons to be completed with applique butterflies or flowers are also of unbleached muslin at 75c.

Many other new stamped pieces are being shown, including pillow slips, scarfs, centerpieces, towels and children's dresses. (Thirteenth Street, Central)

First Hand-Made Blouses for Spring Are Here
They are all of that fine, soft French voile that makes such dainty blouses, and these, every whit handmade, are fresh and pretty as posies.

The blouses themselves are white, but each is brightened by a gay touch of color—Peter Pan collars piped with a gay hue, or perhaps collar, cuffs and vest lending a bright touch, like the model with vestee of dotted voile.

And a few blouses, all in snowy white, have hand-embroidery, drawnwork and real fillet. \$5.90. (Market)

Charming Silk Dresses at \$16.50 to \$25
There must be at least fifty different styles among the charming new frocks which have arrived for Spring. Dresses of taffeta are made in youthful ways.

Another new dress, of Canton crepe, has embroidered medallions done in heavy silk, pointed with crystal beads. In periwinkle, navy and tan. \$20.

In Women's Sizes—36 to 46

Bright as the First Crocus—Spring Neckwear

Gay colors and Peter Pan collars are predominating influences in Spring neckwear, as you'll observe from the fascinating new collection the Neckwear Store has ready now.

There are collar-and-cuff sets in no end of bewitching new styles, some in white or solid color, piped or trimmed with a contrasting, more vivid color. Others have wee trills or hemstitching or, quite often, hand embroidery to make them more pleasing.

Between \$1 and \$6.50 there's an amazingly wide choice. Vestees, alone or with cuffs to match, are quite as attractive as the collar-and-cuff sets, and are in similar styles. These are \$1 to \$4.25.

They'll add an "air" to a frock or suit or sweater! (Central)

Trim and good looking they are—oxfords of tan or black calfskin with perforated side saddles. New, too, and in the same shipment come other Spring oxfords, of sturdy tan or black leather in a conservative style with perforations on the tips and at the sides.

BLouses

Georgettes and chiffons—plain or embroidered—solid colors, printed or white—are safely washed in the silky suds of Colgate & Co.'s new wash-bowl flake—

FAB
Fab flakes dissolve completely. Fab flakes are thin and that's one reason why they are safe. Fab flakes leave no sticky lumps of soap to cling to slender threads and stain them.
Fab—the new Colgate soap flake—was tested in the laboratories of Carnegie Institute of Technology and pronounced a superior soap flake for washing all fine fabrics.
