Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, sore between the toes, and the corns without pain or irritation.

SENATE ASKS FACTS ON 4-POWER TREATY
Calls on President for Information Regarding Its Negotiation
LODGE YIELDS HIS ASSENT
By the Associated Press
Washington, Feb. 16.—The resolution asking President Harding for full information regarding the negotiations of the four-Power Pacific treaty, adopted by the Senate today after a debate in which the Arms Conference policies were discussed generally for the first time on the floor of the Senate.
Republican and Democratic leaders united in support of the resolution after its author, Senator Hitchcock, had made some minor changes in phrasing. It was adopted without a recorded vote, although several Senators had declared in the debate that they opposed it because of the "bad public policy" involved in sending such a request to the White House.
Senators Lodge and Underwood, both of whom were members of the Arms Conference, during the debate preceding adoption of the resolution declared there was nothing to conceal.
Senator Lodge Satisfied
Senator Hitchcock's suggested amendment in minor respects, and Senator Lodge announced the revised version was satisfactory to him.
"I think it is only fair to say," added Mr. Lodge, "that many things are asked for there, in the form of memoranda and minutes, which have no existence as written documents."
"I hope the Senator is mistaken," replied Senator Hitchcock. "It would be amazing that this treaty, which according to the President himself, is the outstanding compact for peace in the Pacific, should have been concluded without similar minutes to those which were deemed necessary in the consideration of the much less important treaties relating to China. At least this resolution when sent to the President will develop the exact situation, and I trust will throw some light on the debatable questions involved in construction of the treaty."
Senator Kellogg, of Minnesota, opposed the resolution, declaring that if American plenipotentiaries could not conduct conversations "without a stenographer, following them around" he didn't think their efforts ever would get very far. Senator Williams, of Missouri, also opposed it because he thought it was "bad public policy."
Underwood for Full Publicity
Taking up the discussion in favor of adoption, Senator Underwood said he agreed with Senator Williams that the policy was bad, but he was willing to vote for the resolution because he wanted full publicity about what happened in the Conference.
"The discussion in reference to the four-Power Treaty," continued Senator Underwood, "was really not so much a discussion of that treaty as it was a discussion of the Japanese-English alliance. It undoubtedly was the purpose of the American delegation from the time the naval negotiations began to secure cancellation of the alliance. That was not a question that could be discussed in open negotiations. We couldn't say to Japan and England, 'We wish you to cancel this alliance; therefore what took place was private consultations.'"
"It developed in those consultations that the alliance could not be canceled without something being put into its place. When it was agreed that the five Powers would respect their respective rights in the Pacific, the balance was merely a matter of drafting. The American delegation did discuss from time to time, but it was not discussed in the committees."
MORE AMERICAN TROOPS COMING FROM GERMANY
Further Reduction of 203 Officers and 3000 Men Ordered
Washington, Feb. 16.—(By A. P.)—An immediate further reduction of 203 officers and 3000 men in the American forces in Germany was announced today by the War Department.
There will be remaining in Germany after this reduction a total of 109 officers and 2217 men.
The orders sent to Major General Allen at Coblenz directed that the troops be sent home on the earliest available transport. The reduction is supplemental to the orders of last October, under which nearly 8000 men already have been returned to the United States.
Troops ordered home include brigade headquarters and the headquarters troops of the forces in Germany: the Fifth Infantry, First Battalion, Sixth Field Artillery, less Battery A; Company A, Sixth Engineers, and the necessary auxiliary supply and medical detachments.
Troops ordered home include brigade headquarters and the headquarters troops of the forces in Germany: the Fifth Infantry, First Battalion, Sixth Field Artillery, less Battery A; Company A, and B, First Engineers, and the air service, signal corps, quartermaster, transport, hospital, ordnance and other detachments not needed with the regiment that is to remain.
SEE END OF RUSSIAN RELIEF
People Expected to Be Able to Feed Themselves by September 1
Washington, Feb. 16.—(By A. P.)—The American Relief Administration expects to withdraw from its undertaking in famine-stricken Russia by next September, Edgar Rickard, of that organization, said today, after he had conferred with Secretary Hoover.
By that date, Mr. Rickard said, the Russians should be able to feed themselves with the proceeds of their harvests. The American Relief Administration is sending to Russia 122,000 tons of seed wheat for planting this spring, he said, which is expected to insure ample crops. More than 1,000,000 children are being supplied with a balanced ration now, and this number will be increased by September 1, he said.
Mr. Rickard said the \$52,000,000 which has been available for the purpose would be exhausted by September 1, and it is not the desire of the administration to solicit private funds.
SENATORS WANT JUNKET
Agricultural Committee, 17 Strong, Asks Trip to Muscle Shoals
Washington, Feb. 16.—(By A. P.)—The Senate Agriculture Committee today asked the Senate in a resolution for authority to visit the Muscle Shoals power and nitrate project in connection with the committee's consideration of Henry Ford's offer to lease the properties.
The resolution, which proposed that the whole committee of seventeen make the trip, was referred to the Auditing Committee because of the expenditures that would be entailed.

URGE ONE OWNER FOR FREIGHT CARS
Central Agency to Buy and Distribute Rail Equipment Urged Before I. C. C.
HUGE SAVING IS OUTLINED

Washington, Feb. 16.—Experts for the National Association of Owners of Railroad Securities outlined to the Interstate Commerce Commission today a plan for controlling railroad equipment purchases and operation which they said would save annually more than \$300,000,000.
Details of the plan as set forth by W. W. Colpitts, engineering expert for the association, provide for organization of a central agency under supervision of the commission to purchase and own a large proportion of the freight cars now owned by the railroads. This organization would arrange for repair and rebuilding of all the bad-order cars, would purchase new cars and enlarge the stock of refrigerator, tank and other cars of special design, and lease them to the railroads for carrying of freight.
The saving would be made, the association representative said, from the cheaper rates at which such a central agency could borrow money for purchases and betterments, the mobility with which the cars could be transferred from one section of the country to another or from one railroad to another as traffic conditions required, and from the decrease in the total number of cars which would be required.
"We consider that this proposal is particularly advisable at the present time," Walter L. Fisher, former Secretary of the Interior and counsel for the association, declared, "since the commission has before it suggestions from Secretary Hoover that you embark upon a policy of increasing railroad equipment facilities to a far greater extent than it is contemplated in our plan."
UNION HEADS MEET RAILROAD MANAGERS
New York, Feb. 16.—(By A. P.)—Testing the theory sponsored by Herbert Hoover, that the best way to solve the railroad wage controversy is "around the table," fifty-two officials of Eastern roads and representatives of train service brotherhoods began a series of regional conferences at the Grand Central terminal today.
Labor was represented by twin delegations, headed by L. E. Sheppard, president of the Order of Railway Conductors, and W. G. Lee, president of the Brotherhood of Railway Trainmen.
The committee of managers appearing for railroads east of the Mississippi and north of the Ohio River included P. E. Crowley, vice president of the New York Central; Elisha Lee, vice president of the Pennsylvania; W. W. Galloway, vice president of the Baltimore and Ohio; C. H. Ewing, vice president of the Philadelphia and Reading; S. Ennes, vice president and general manager of the Wheeling and Lake Erie; C. L. Burdick, general manager of the New York, New Haven and Hartford; and John G. Waiber, secretary of the Bureau of Information of Eastern Railroads.
A similar conference with engineers' and firemen's organizations will begin next Monday.

MELLON AGAINST U. S. LOAN TO R. R.'S FOR EQUIPMENT
Treasury Officials Deny Secretary Sanctions Hoover Plan
Washington, Feb. 16.—(By A. P.)—Secretary Mellon, it was said today at the Treasury, is opposed to the suggestion attributed to Secretary Hoover, that the status of the railroads should be improved through lending governmental credit to the carriers.
In a formal statement Mr. Mellon announced that newspaper reports to the effect that he "opposes the plan to give a Government guaranty to issues of equipment obligations by railroad companies are entirely without foundation." No such plan has, in fact, ever been presented to the Treasury for consideration, the statement added.
MELLON DENIES WATSON CHARGE OF LAW VIOLATION
Secretary Bases His View on Legal Advice Given Him
Washington, Feb. 16.—(By A. P.)—Basing his view on legal advice, Secretary Mellon considers that he has not contravened the law, prohibiting the Secretary of the Treasury from engaging in commerce or business, it was declared today by high Administration officials in commenting on that attack on the Secretary made yesterday by Senator Tom Watson.
The law was called to Mr. Mellon's attention, officials said, when he was considering the invitation of President Harding to join the Cabinet. A number of legal authorities were consulted, who gave it as their opinion that the Secretary's ownership of stock in corporations did not constitute engaging, directly or indirectly, "in commerce or business."
Before accepting the Treasury portfolio, officials said, Mr. Mellon only active participation in business was upon the directorate of a number of banks and from these he resigned before entering Mr. Harding's Cabinet.
Secretary Mellon, officials asserted, has not devoted a moment's time to private business.
BUSINESS GETTING BETTER
Gradual Improvement Seen—Sudden Pick-up Not Expected
Washington, Feb. 16.—(By A. P.)—Business conditions throughout the country are better than they were a year ago in the view of Treasury officials, who declared, however, that the improvement has been gradual and that there is no immediate prospect of a sudden pickup in business activities.
"Some seasonal activity might be looked for,"

BALFOUR WELCOMED HOME
Declares World Owe "Unaccountable Debt" to U. S.
London, Feb. 16.—(By A. P.)—Arthur J. Balfour, officially welcomed home today from the Washington Conference at a luncheon by the Government and Coalition members of both houses of Parliament, declared that "the world owes an unaccountable debt of gratitude to the Government of the United States."
Prime Minister Lloyd George, presiding at the luncheon, paid a striking tribute to Mr. Balfour, saying he had taken part in "one of the most notable contributions statesmanship has ever made for the sake of human peace and human happiness."

STEINWAY PIANOS
A grand piano must have length of string and ample soundingboard area to produce real grand piano tone. Therefore, there are no tiny Steinways. The smallest Steinway grand (Style M) is 5 ft. 7 in. long; but its tone is as noble, as beautiful in singing quality, and as thoroughly sustained, as that of the great Steinway concert grand; only modified in proportion to its length. In selecting a grand, compare length with price—then compare the relative degree of repetition. World over, Steinway is the piano standard. Price of Style M, \$1375. Time payments, if desired.
N. STETSON & CO. 1111 CHESTNUT ST.
WE SELL EDISON PHONOGRAPHS
THE STEINWAY PIANO will be used in the important musical events announced below:
February 17—Miss Margaret Corbett..... at Musical Fund Hall
February 18—Frits Kreisler..... at Academy of Music
February 23—The Boosters..... at Bellevue-Stratford
February 25—Rachmaninoff..... at Academy of Music

CHARLES J. MAXWELL & CO.
WILL CONTINUE THEIR SALE OF JEWELRY UNTIL EVERY ITEM IS SOLD
AT A FLAT REDUCTION OF 50%
THE response to this unprecedented announcement has been flattering in the extreme. We do not overlook that the extraordinary reduction of 50% is mainly responsible for it. But reputation has much to do with it. The success of even a 50% reduction depends upon who makes it. This is particularly true in jewelry, in which the public must look to the prestige and integrity of the house for its protection. The people of Philadelphia know that while the Maxwell stock is reduced by 50% the Maxwell reputation for quality and integrity still remains at 100%. It is our prices alone, and not our reputation, which are offered at reduction. And although the sale so far has accomplished the purpose for which it was held, we will continue it until, in accordance with our initial announcement every item in our stock has been sold.
THE OPPORTUNITIES ARE TRULY SPLENDID
Every Item is Cut One-Half in Price and Everything is Included with the Sole Exception of Tecla Productions
