the May primary.

Miss Martha G. Thomas, known as the state of the state of

Miss Thomas probably will be the first woman elected to the General Assembly from Chester County. At a recent meeting of men leaders, including Senator 1. Larry Eyre, it was decided to have one woman in the county delegation to the House at Harrisburg.

The Chester County organization has promised to support Miss Thomas, who is also in the enviable position of having the support of women's organizations if there.

Economies Effected Through Co-or-

dination, it is Shown The Mitten management of the Philadelphia Rapid Transit Company effected savings of \$1,813,750 last year through economies, brought about by the co-

ordination department. William C. Connell, assistant to William C. Connell, assistant to Wil-liam C. Dunbar, vice president in charge of finance, made that statement today before the Public Service Com-

mission at a transit valuation hearing in City Hall.

Mr. Connell said \$212,990 was saved in the operation of the Market Street subway and elevated through cutting down the number of ticket-takers and in changing the system of cleaning. Various economies in the maintenance of way department amounted to \$202. of way department amounted to \$202.-459, but the greatest saving was in the matter of wages due to shortening the weekly hour average of the employes. That sum was \$803,303. It was effected through reductions in hours from seventy to fifty-six and from fifty-four to forty-four hours a week in various

WALK-OVER

Find Out What the Shape of Your Foot Is

Most of us think of a shoe as black or tan, button or lace, high or low. We like the looks of a shoe, stamp our foot in it, and say, "That's all right, how much?"

But is that all-going only by what the eyes see and not what the feet feel?

Shoe salesmen see feet whose symmetry has been utterly destroyed by illfitting shoes. Those who know, their, business are taking the trouble to explain that the shape of one man's foot is not the shape of another's; nor is one woman's foot the same as another's. That's why the Walk-Over Shops have many hundreds of different fittings and shapes in the new styles.

It takes care-a great deal of care-to fit feet correctly. A shoe salesman must know as much about feet as he does about

At the Walk-Over Shops they don't know so much about selling shoes. But they do know how to fit feet so that shoes of good style will always hold their shape and feel good. And they have the best shoe materials to work with.
