**A Suspension in Anthracite Coal Mining now seems certain on April First**  
Should this suspension come, its duration is uncertain. We therefore suggest to our customers that they carry sufficient coal to meet their needs during the present heating season. We advise that they leave next winter's requirements until the new prices shall have been fixed, as they cannot help but be lower.  
Users who take a reasonable tonnage while there is still a supply available will save themselves anxiety and will be assured of comfort and convenience.  
We have prepared to meet the average March and April needs of our many customers and can render our usual high-grade service.  
The word to the wise is to make a prompt decision in the matter and to place any orders decided upon as soon as possible.

**American ICE COMPANY COAL**  
Increases the action of the intestines  
Hundreds of men and women have already found freedom from laxatives by eating Fleischmann's fresh yeast.  
Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indiscriminate use of cathartics is one of the causes of constipation.  
Physicians all over the country are recommending Fleischmann's fresh yeast because it is a fresh food, rich in those elements which keep the intestines healthy. In one series of tested cases, normal functions were restored in from 3 days to 5 weeks.  
Try it out for yourself. Begin today by adding 2 or 3 cakes of Fleischmann's Yeast to your everyday diet. Keep it up and see how normally and regularly your intestines act. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer.

**LENGTHY SESSION LOOMS IN TRENTON**

Appropriation and Other Major Bills May Necessitate Extending Time Limit  
**CANAL MEASURE PENDING**

Trenton, March 6.—With the most important business of the session yet undisposed of there is little prospect that the New Jersey Legislature will be able to carry out the program fixing next Thursday as the time-limit for the consideration of bills and final adjournment a week later when it was planned the two houses should return to consider measures vetoed by the Governor.  
Thus far only a handful of bills have passed both houses, and many of them are unimportant. The appropriations bills are not yet ready for introduction, and the Republican majority is not disposed to let Governor Edwards have the final say in striking out items of appropriation. That is one reason for the plan of a recess between the cessation of bill-passing and final adjournment.  
Other pending measures include the Morris Canal Abandonment Bills, the Excess Crew Law repealer, the \$40,000,000 Bond issue measure, the Bridge and Tunnel Bill, revision of the election laws, proposed amendments to the Constitution and the series of prohibition enforcement measures designed to replace the Van Ness act, recently declared unconstitutional.  
The Republican majority seems to be agreed on legislation ousting the present Bridge and Tunnel Commission and the substitution of a new board, but the details have not been worked out with sufficient certainty to insure that the tunnel project will be carried out irrespective of local opposition, which may develop in Hudson County as a result of stripping the Hague Administration there of its control over the situation. It is proposed that State law shall substitute municipal administration for that of acquisition of the necessary approaches to the tunnel.  
The House Judiciary Committee will conduct a hearing on the bill by Senator Larson, which would repeal the law of 1921, authorizing the State Board of Equalization to equalize tax assessments in the counties. The bill already has passed the Senate. The law was designed to guard against discrimination by county assessors in making up the tax books.  
A public hearing has been announced for tomorrow morning on the bill by Senator Heath to grant the "old rights" for women sponsored by the National Women's Party. A Senate Committee will hear today a debate on the Revenue Bill, which would increase the State school tax to provide additional revenue of approximately \$20,000,000.  
House Bill No. 4, already passed by the lower branch of the Legislature, will be given a Senate hearing. The bill would make condensed milk sold in the State conform to the Federal regulations.  
A joint hearing on House Bill 475 and Assembly Joint Resolution No. 7 relating to insurance companies, will be conducted at 2 P. M. before the House Committee on Banking and Insurance. The joint resolution will provide for a committee to make a survey of the volume of insurance written in the State, while the bill would require insurance companies after July 1 to invest 60 per cent of the reserve held on lives of New Jersey residents in first mortgage loans up to 60 per cent of the value of property. It is designed to aid home building.

**ASSAIL "OPEN-AIR GARAGES"**

Garage Owners Declare They Violate Fire Laws at Shore  
Atlantic City, March 6.—War on "open-air" garages has been declared by owners of the regular establishments, representing investments of many millions, in this resort.  
The fact that the city assumes traffic burdens of the proportions of the big cities over the week-ends last summer caused so much congestion along the south side highways from street parking that the city authorities permitted owners of open areas in that section to throw them open for outdoor garages. No licenses were charged by the city.  
Owners of the regular garages immediately protested, declaring that they were being deprived of thousands of dollars in business which they could handle with their own establishments but which the outdoor arrangement permitted to go to "floaters" who dropped into town for the summer months, rented the lots at a nominal figure and then "cleaned up."  
The shore garages have formed an association and will seek to restrain the city through legal steps if the outdoor parking spaces are permitted this summer. They charge that the arrangement is a flagrant violation of the fire laws, constituting a hazard that endangers the biggest hotel centers.

**PLANE USED AS AMBULANCE**

Flies 120 Miles at Night in Gale to Carry Patient to Norfolk  
Norfolk, Va., March 6.—Bringing a man ill with pneumonia 120 miles in an ambulance airplane in the teeth of a fifty-mile gale at night in thick weather is the feat of a navy crew and Dr. J. D. Benjamin, U. S. N. The sick man is V. E. Squires, a life saver attached to the Poyners Hill Coast Guard station on the North side of the Chesapeake Bay. Captain Rodman, commanding the Fifth Naval District, ordered a navy ambulance plane and a doctor to go to the assistance of the sufferer. The trip to Poyners Hill was made in sixty-eight minutes and the trip back to Norfolk with the patient was made in seventy-four minutes.

**GUARD RESCUES FISHERMAN**

Shore Patrol Goes Out and Gets Line to Craft in Darkness  
Atlantic City, March 6.—Quick response of coast guards Saturday night saved the life of Joe Peters, a cod fisherman, when his boat was stranded on a bar in a heavy break a mile out from the Inlet.  
The man's peril was seen by a guard and word flashed to the Inlet station. Captain John Holdzkom, with his crew, responded in a non-sinkable lifeboat, and after careful maneuvering in the darkness succeeded in getting a line to the fisherman, whose craft was shipping water with every comb.  
The guards dragged the skiff into deep water and towed it into the Inlet, saving both its owner and his catch.

**GRANGE OPPOSES DAYLIGHT SAVING**

Hending, Pa., March 6.—Before adjournment Saturday night at Fleetwood, the convention of the grangers of Berks County unanimously adopted resolutions opposing daylight saving and proposing that the State legislature should pass a law to prevent the adoption of the measure.  
The resolutions were adopted by a vote of 100 to 10.

**VETERANS IN STATE TO ENTER POLITICS**

Soldiers' Civic League to Be Reorganized at Harrisburg Meeting Saturday  
**PLAN TO FIGHT FOR BONUS**

Pittsburgh, March 6.—Into the already chaotic political situation in Pennsylvania has been projected a State-wide political movement of veterans of the World, Spanish-American and Civil Wars. A meeting will be held in Harrisburg next Saturday, at which soldiers from every county are expected to be present and plan for organizing in every part of the State.  
So quietly that outsiders knew nothing about it till yesterday, the launching of the movement took place at a meeting Saturday night in the Soldiers and Sailors Memorial Hall, under auspices of the Soldiers' Civic League. That organization, formed years ago, but which has been moribund, the league has been reorganized with Major J. W. Nesbit, of Oakdale, as president.  
The fight for the soldier bonus led to the decision to put life into the league, but the veterans make no secret of the fact that the opposition to the bonus offered by Senator Pepper in what the soldiers are talking about most. There is no question as to their anxiety to bring about the retirement of Senator Pepper.  
In addition to the Harrisburg meeting, a mass meeting for soldiers and their families will be held in Pittsburgh in the near future, it was decided Saturday. Captain Robert G. Woodside, Sheriff of Allegheny County and a World War veteran, today said the purpose of the mass-meeting will be to bring about the passage of the Bonus Bill.  
It is the plan to convert the Soldiers' Civic League into a State organization, with a branch in every county, it was said.

**NIELSEN TO QUIT POST IN STATE DEPARTMENT**

Hughes to Fill Three Vacancies. Promotions Within Service Unlikely  
Washington, March 6.—Resignation of Fred K. Nielsen, solicitor of the Department of State, will be announced shortly after the return of Secretary Hughes from a vacation in Bermuda. It was learned yesterday.  
Mr. Nielsen was named to his present office in June, 1920, by President Wilson. The appointment was largely in recognition of efficient work at Paris in 1919, where Mr. Nielsen, then assistant solicitor of the department, was an American representative at the Peace Conference and expert legal adviser in matters relating to treaties, claims against enemy Governments and protection of property in enemy countries.  
Withdrawal of Mr. Nielsen from the department, coupled with other important changes in personnel soon to take place, will compel Secretary Hughes to consider a widespread realignment of executives when he returns to his desk today.  
Under-Secretary Fletcher, who was named Ambassador to Belgium several weeks ago, expects to leave for his new post about March 15. Fred M. Darling, the Assistant Secretary, also is expected to leave this month for Portugal, where he was appointed Minister several weeks ago.  
No intimation has been given regarding their successors. It was learned on good authority the appointments will not be filled by promotions within the department.  
Among other personnel changes in the department at Washington, it was learned yesterday, is that of Clinton E. MacEachern, assistant to Under-Secretary Fletcher. It was said Mr. MacEachern soon would be named Consul at Antwerp, Belgium.

**"OPTIC" COSTUME AT SHORE**

Women Match Raiment With Hue of Eyes and Hair  
Atlantic City, March 6.—The "optic" costume is the newest "wrinkle" in feminine sportswear along the Boardwalk.  
Fashion visitors are matching their promenade attire with the color of their eyes, and the fad has found tremendous favor among hundreds of pretty damsels.  
Blues and browns yesterday had the call in the first big showing of the new modes. From smart and close-fitting toques to silk and wool hosiery the eye shades were followed out. Rubber-soled sport shoes generally completed the apparel.  
If the wearer happened to be a blue-eyed blonde the main "structure" of the bonnet was of straw color, with brown trimmings. A brown-eyed brunette reversed the order; the brown leather was the base with lighter decorations.

**LITTLE BENNY'S NOTEBOOK**

By Lee Pape  
I went to the store to get a spool of red silk for me and on the way home I went past Mary Watkins house on account of it not being very much out of my way, and she was setting at the parlor window with a white bow in her North hair looking all right and at her and went past on account of not having anything special to stop for, and when I got past I thought of something special and I went back and yelled to her, throw the window. "Hey Mary do you want to see a grate trick?"  
Which she shook her head, yes and opened the window and I held up the spool of silk saying, Ladies and gentlemen, I have here a ordinary spool of silk, and I will now eat it.  
And I put it in my mouth and then quick turned around and took it out and stuck it inside my coat around my stomach with a little hunk of the thread sticking out between 2 buttons, and then I turned around again making awful faces like somebody swallowing a spool, and then I sed, Ladies and gentlemen, I have now swallowed the spool of silk and it is now in my stomach and I will now prove it by pulling it out.  
Which I started to pretend to do, taking a hold of the end of the silk and starting to pull the thread out and it came out like a regular trick and after I pulled out about 5 yards I looked at Mary Watkins and she looked as if she was anything, saying, Benny Pape I think you are perfectly horrid and I never want you to speak to me again as long as you live.  
And she quick slammed the window, me thinking, Gosh, good nite.  
And I wound the silk back on the spool again, trying to wind it just like it was at first but when I got home I saw the different rite away and gave me a fearsome crink.  
Eviding some tricks sound better than what they really are.

**PHILHARMONIC SOCIETY GIVES FOURTH CONCERT**

Presents Two Young Philadelphia Soloists in Attractive Program  
The Philharmonic Society gave its fourth concert of the season at the Academy of Music last evening, before what was perhaps the largest audience that has yet attended a concert of the organization. The program presented by Mr. Pasternack was orchestral in the most attractive that he has yet given, the numbers being Mendelssohn's "Midsummer Night's Dream" overture, Charpentier's suite, "Impressions of Italy," Debussy's "Afternoon of a Faun," and closing with the ever popular but increasingly seldom heard "William Tell" overture. The orchestra played well, as it always does, and

Mr. Pasternack showed great versatility of sentiment, as well as skill in leadership, in the highly different numbers which constituted the program.  
In the Charpentier "Impressions of Italy" the beautiful viola solo was played back of the scenes by Romain Verney, solo viola of the orchestra. Mr. Verney had a beautiful tone of great warmth and richness, and was received with the applause which his excellent work deserved. After the solo part he joined the orchestra in his place at the head of the violas.  
There were two soloists, both young Philadelphians. The first to appear was Clarence Fuhrmann, pianist, who received honorable mention at the last competition of the society. He played Liszt's "Hungarian Fantasia" with splendid technique and with much musicianship, although the elaborate solo part of the piano in this purely virtuosic

composition makes more demands on the fingers than on the head. He was cordially received and responded with an encore.  
The other soloist was Miss Rhea Hornstine, soprano, who sang "Depute le jour" from "Louise." She has a high voice of excellent quality and displayed a good technique in the management of breath and in all the other details of vocalization. Like Mr. Fuhrmann, she was obliged to respond with an encore, singing Saar's "Little Gray Dove" and creating as favorable an impression in the lyric work as she did in the more elaborate operatic aria.  
Grip Epidemic in South New Jersey  
Cape May, N. J., March 6.—An epidemic of grip has been severe in Southern New Jersey for two weeks. There is hardly a household in the county that has not had a case of it.

**Armstrong's Linoleum**  
for Every Floor in the House

When modern linoleum is properly laid

MANY people think of linoleum as something tacked down. The proper way to lay a beautiful linoleum floor is without tacks.  
You select a pattern for your room. You may choose a rich, plain color, a carpet inlaid, a delicate two-tone Jaspé, a parquetry inlaid, or one of the many distinctive inlaid or printed designs in which Armstrong's Linoleum is made.  
Then you have this linoleum cemented down firmly over a layer of builders' deadening felt. This makes a permanent floor, quiet, firm, comfortable under foot, and without cracks or crevices.  
This floor is easily cleaned. An occasional waxing or polishing restores its original brightness. It is extremely durable and always to be admired. A modern linoleum floor, with here and there a fabric rug, offers a real opportunity to make the floor a harmonious part of the decorative scheme of a room.

We have a little booklet, "Decorative Linoleum Floors," containing twenty-four colorplates showing Armstrong's Linoleum patterns in Jaspés, carpet inlaid, parquetry inlaid, inset tiles, printed designs. The booklet will be sent you free on request. You can take it to a store and show the merchant what kind of linoleum you want to see.  
Any good furniture or department store will give you estimates of the cost of a linoleum floor properly laid in your home.  
Armstrong's Linoleum is guaranteed to give satisfaction.
