CUT IS IMPOSSIBLE

P. R. R. Spokesman Declares Evidence Taken by Commerce Commission Proves It

ASK SIX PER CENT RETURN

By the Associated Press Washington, March 8 .- The Interstate Commerce Commission's investigation of present freight rate levels entered its final stage today when counsel for all the railroads of the United States and most of the business and shipping interests began the summing up of evidence taken during three months of hearings. For the railroads, which were given the opening argument, Henry Wolf Bikle, of the Pennsylvania system, declared that the evidence had proved a general rate reduction was impossible.

fix a 6 per cent return as reasonable, Mr. Bikle said the carning power of the railroads by actual experience dur-ing 1921 amounted to 3 3-10 per cent on their investment, and that, considering only the last six months of 1921, when wage decreases and other de-creased operating expenses were effeccreased operating expenses were enec-tive, the carnings were 4.40 per cent. "The showing is that while expenses of railroad operations have been to some extent diminished," Mr. Bikle to such an extent as to permit further general reductions in rates, unless these

tion was impossible.

Resting his argument on the sections of the transportation act which

Commission to Fix Return

wages."

reductions are preceded by reductions

Though the transportation act provision of 6 per cent expired March 1.
Mr. Bikle said, the commission itself yould have the duty of determining a standard of reasonable return and could hardly escape the conclusion that this was a proper amount. "Have you considered what we shall

do in case it is impossible to make rates that will give railroads 6 per cent?" Commissioner Attchison queried.
"We consider that the law requires
the commission to fix the rates so that the commission to fix the rates so that the earnings shall be either 6 per cent or near that as may be." Mr. Bikle-replied. "If you diminish earnings which have not been equal to 6 per cent you are not carrying out the law."

"Are we to understand that the car-riers are not asking a return greater "That is correct," Mr. Bikle said.

Blow to Credit Seen

"No greater blow to the credit of the carriers, to the improvement of transportation or renewed purchasing power of carriers as an impetus to in-dustrial activity could be imagined than an order for general reduction in rates." Fred H. Wood, general attorney for the Southern Pacific, declared, "The maintenance even of present carnings, and of the present Nor can it exercise revision over legislation of Congress except when a concrete case is presented between litigants and an "invincible, irreconcilable and indubitable repugnancy develops between a statute and the Constitution."
