\$10,000 AWARD

Infant Daughter of Leopold Stokowski Real Beneficiary of "Philadelphia" Prize

FOR HER EDUCATION FUND

Sonia, two-and-a-half-months-old daughter of Dr. Leopold Stokowski, who last night was given the \$10,000 award for the citizen who has done the most for Philadelphia during the last year, is the more or less proud possessor of her father's prize.

The award was created by Edward W. Bok, who deposited a fund of \$200,000 to provide revenue for the prize each year.

But whether she appreciates it or not is another thing, for her first act was to pull the check into her bath early this morning.

Her father, appearing in a black dressing gown, announced that it was too early for him to be interviewed and suggested to be excused for a few moments as it was his time for playing with the baby.

Dr. Hanson Tells Lenten Audience Battleground of Today Is in Homes

URGES BETTER TRAINING

Male and female "vamps" who break up homes were called the worst enemies assailing the structure of modern society by the Rev. Dr. Henry W. A. Hanson, of Pittsburgh, in his address at the midday Lenten services today in Keith's Theatre.

His subject was divorce. He said the "vamp," male and female, is the cause of the hardest problems in the present-day divorce situation.

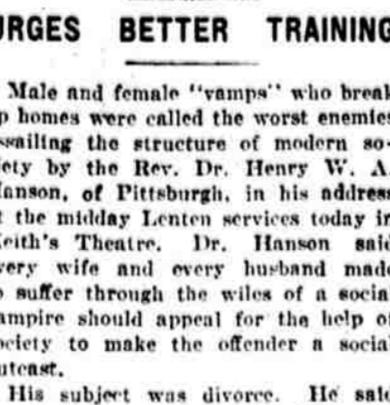

"The great battleground of modern life is in the homes," he said. "It is of the utmost importance to society to preserve the home from contact with disintegrating influences."

"Lawmakers are far less vital to social welfare than the home-makers. The time has come for society, in self-protection, to establish higher ideals in the home."

A great lawyer in Chicago, after a study of many divorce cases, said forty-nine out of every fifty persons who seek a divorce have already chosen a successor to the wife of the husband who has been given the Philadelphia award.

Statistics Showing Increase in Operating Expenses Presented to Labor Board

160 P. C. RISE IN 5 YEARS

By the Associated Press
Chicago, March 10.—Statistics showing the increased cost of operating railroads were presented before the United States Railroad Labor Board today by Southern and Southwestern roads as reasons why pay of employees on the Nation's carriers should be reduced.

W. A. Northcutt, general solicitor for the Louisville and Nashville, was the spokesman. He said the rails revenue increased 108 per cent from 1916 to 1921, but the labor bill increased 160 per cent.

On the Chesapeake and Ohio the revenue increase in the five years was 68 per cent and the labor bill increased 108 per cent, or an increase from 37.2 cents to 45.7 cents for labor out of each dollar in revenue.

On the Atlantic Coast Line, Mr. Northcutt said, revenue increased 78 per cent, while labor costs went up 136 per cent in the five-year period.

The amount of money spent for labor out of each dollar's revenue on other roads in 1916 and 1921 was given by Mr. Northcutt as follows:

WOMAN IS FREED
OF 'EVIL INFLUENCE'

Married Man Accused With Her in Theft Is Sent to Jail for Two Years

PUT HER ON PROBATION

By sending the man to the county prison for a two-year term and placing the woman in the case on probation for the same length of time, Judge Shoenaker today announced the plans of relatives of Marie Lockenoff that she be relieved from the "evil influence" of John F. Renner.

The woman, who was married and gave an address at Sixteenth and Master streets, pleaded that she was to blame in the case and asked that Renner, a married man with children, who lives at 10 North Twenty-fifth street, Camden, be allowed to go free.

The man and the woman were arrested February 23 after stealing a \$150 coat from a downtown department store. Today they were convicted on all charges after the girl told a story defending her accomplice.

Judge "Lashes" Man
Judge Shoenaker was indignant as he lashed Renner verbally for his denial of his part in the theft and his willingness to allow the girl to take all the blame.

"Why don't you support your family, instead of traveling around with other women?" demanded the Judge. To Renner's reply that he did and that he did not travel with other women, Judge Shoenaker returned: "Oh, no, you didn't support them. I think you have been demoralizing influence on this woman."

HOPE OF AVERTING
COAL STRIKE FADES

Refusal of Government's Plan for Conference by Operators Seen as Bad Omen

UNIONS EXPECT PUBLIC AID

By the Associated Press, Indianapolis, Ind., March 10.—Hope of a nationwide coal strike being averted by the Government's appeal for the operators and miners meeting in a wage conference seemed to have vanished today among officials of the United Mine Workers of America on account of the continued refusal of some operators to meet with the miners to negotiate an interstate wage agreement.

Union officials, however, refused from any announcement of their future plans, but it was indicated that the session before April 1 to any district questions relating to the prospective strike.

The union officials are optimistic that public opinion will be with them in the controversy with the mine owners, and are hopeful that the operators' refusal of the Government appeal will be accepted as a defiant attitude on the part of the operators.

The insurgent movement of Illinois miners' officials is not yet viewed as alarm by the union officials here, for they continued to make the positive assertion that no single State wage agreement would be made by any district. It is expected that, when the District Committee is called into session, this question will be brought up for early decision.

Frank Parrington, the Illinois president, and eight other Illinois men are members of the committee, and his statements favoring the single State proposal are regarded as forcing a fight in the committee. President Lewis and other administration forces opposing the single State agreement, however, are confident that they will have a majority within the committee.

ATTEMPT TO DELAY
TREATY TALK FAILS

Debate on Four-Power Pact Continues in Senate in Effort to Speed Action

By the Associated Press
Washington, March 10.—Requests to delay temporarily the Four-Power Pacific treaty in the Senate today were blocked for the time being by Administration leaders, who insisted that the ratification debate continue and that the "irreconcilables" opposing the treaty present their case or else allow voting to begin on proposed reservations.

Several Senators, however, sides of the chamber, had prepared addresses on a bill to reorganize the Federal Judiciary, but Senator Lodge, the Republican leader, declined to let the bill have the right of way.

The "irreconcilables" indicated that they were not anxious to keep up the active offensive they began yesterday, several of them saying they preferred to postpone further discussion until they had heard the speech in support of the treaty to be made tomorrow by Senator Underwood, the Democratic leader. Underwood is expected to reply to him Monday.

The Christian life is a life of service. There is no such thing as a selfish Christian. The terms are contradictory. A selfish man is not a Christian.
Even as the disciples were sent out in pairs, that might thus be brought to bring out the best that was in them, so the churches should work together, and make common cause against the powers of evil, said Dr. Shattford.

GOLF FIRST ON HARDING'S PROGRAM FOR VACATION

Party Motors to Ormond Today to Board McLean Houseboat
St. Augustine, Fla., March 10.—(By A. P.)—Golf was first on the program for President Harding today, beginning his week's sojourn in Florida to gain rest and relief from the burdens of office. After luncheon the President and his party had arranged to motor down the coast to Ormond, sixty-seven miles distant, and there board the houseboat of E. B. McLean, the Washington publisher, who joined the party when his special train passed through Jacksonville on its way here yesterday. It was planned to cruise on the National Canal as far south as Rockledge, probably stopping at favorable opportunities for golf.

Secretary Weeks, who came here from Miami, where he has been spending several days, to welcome the party, was not planning to go on the houseboat cruise.

MUTE HELD FOR LARCENY

Magistrate Coward Takes Testimony All in Sign Language
After taking testimony given entirely by signs, Magistrate Coward held James Gilman, a deaf man, 2319 South Tenth street, in a jail for court on a charge of larceny.

The complaint is Samuel Kudosh, another deaf man, 5001 Fifty place. With his fingers, Kudosh, told the Magistrate he gave the mute sign to buy stocks and that Gilman had converted the money to his own use.

There were a number of notes in the courtroom at one time in the proceedings counsel for Gilman called attention to a man in the back of the room who was wiggling his fingers. The lawyer said he was prompting Kudosh, then the stand. Magistrate Coward ordered the man out of the room.
