Have the butcher clean the chicken if you desire, and return to you the feet as well as the giblets and all intestinal fat. Many butchers fail to do this and keep the fat and resell it, so for this reason it will be well for you to do the drawing of the chicken yourself. It takes but a few minutes to draw a chicken and is quite easy to learn.

Have the butcher cut the head add

Two cups of sugar, Yolke of eight eggs.

Cream until limbs.

Have the butcher cut the head of the chicken off close to the head. When this is done in a careless manner nearly half the neck is wasted. Now take the chicken and singe well, wash and pater of the top of the steam the chicken until tender, first steam the chicken until tender, then place in the oven to brown. Prepare the filling and cook on the top of the store or in the oven in a separate pan and serve with the chicken.

One teaspoon of estract of nutmeg, Two teaspoons of vanilla.

Now add

Sis oups of sifted flour, Five level teaspoons of baking powers.

Two cups of water.

Beat to mix, and blend until quite smooth. Now add the stiffly beaten whites of the eight eggs and turn in the prepared pan and bake in a slow oven for one and one-quarter hours. You can add, if you desire, a white fruitcake:

Butter-Cream Icing

Boiled Icing Place in saucepan Four cups of sugar,

One and one-quarter cups of water, One teaspoon of cream of tartar. One teaspoon of cream of tarter.

Bring slowly to a boil and cook until 240 degrees on the candy thermometer, then pour in a fine stream slowly on the stiffly beaten whites of three small eggs.

Use for icing the cake.

A spatula dipped in boiling water is used to make the cake smooth. The best and nicest icing to use is the butter-cream icing. The cake may be covered with coconut or nuts if you desire.

Dear Mrs. Wilson-Will you kindly state how to prepare and cook smoked tenderioin (pork), also how to pre-vent string beans from turning black? Do you recommend lard for making cake?

M. S. One oup of finely chopped nuts,
One cup of candied cherries, cut in
small bits,
Three-quarters cup of citron, out in

One cup of seeded raisins, out in small bits.

Just before turning in the pan, turn the cake from the pan on a wire cake cooler, and if you do not have one use a wire shelf from the oven covered with a clean cloth. The preference for icing can be made as follows: Water icing, can be made as follows: Water icing, using two coatings, the butter-cream icing or the regular boiled icing. Recipes for the water-and-cream icing have been given, but in case you have not seen them I will include them here.

most, proving quantity and quality is 2 different things.

If a fello wissels good everybody considers it is no more than his doory, but if a gerl wissels good everybody thinks she is givete. This proves lest because a thing is unixpected it gets a lot of credit. One of the suddent sites to lissent to is a gerl that thinks she can wissel if she's the only one thinks so and everybody elts knows diffrent.

Some peeple are the only ones that know wat theyre wisseling and others dont even know themselves. This proves the amount of ignorants in othe werld.

No matter how burn of a wisseler you are you allways inloy it yourself, proving wisseling is never intirely wasted, and also proving jest because you're having a good time that dont say everybody elts is.

The best way to call a dog is to wissel to it, but on the contrary you could wissel to a cut all day without making it act eny diffrent.

The scarcest way to wissel is three your fingers, hardly eny fellows being able to do it good, and no gerls.

Some good times not to wissel is in skool, in church, and wen your father is giving you hock.

Butter-Cream Icing

Place in mixing bowl

Whites of two eggs.
Four ounces of sweet creamery butter,
One-half cup of water,
One teaspoon of flavoring.

Now add sifted confectioner's sugar, beating well, and add the sugar very slowly until the mixture has a texture that will spread. This amount will ice the cake and allow sufficient icing to be put through the pastry bag with the rose tube to decorate.

The amount of confectioner's sugar will be between two and two and one-half pounds, the size of the whites of the eggs, and the moisture content of the sugar determining the amount of sugar.

Rolled Value.

A New Use for Batik

Why didn't some one think of it sooner? Can't you just see what an alluring lampshade could be made of shaded georgetic creps? If the folds of this were yellow that toned into a deep, deep orange, the light would find its way through in a rich, warm glow. And then how it would shine down and almost make a mirror out of the vase of copper-colored pottery that would make a perfect base for such a shade.
