Seeks Britton Match

Negotiations are on for a match be-tween Tommy Loughran, Philadelphia's nineteen-year-old latest fistle star, and the middleweight champion, Johnny Wilson, Wilson, it is said, has agreed Wilson. Wilson, it is said, has agreed to box Loughran some time next-month at the Ice Palage, and only the proval of Director Cortelyou remains for the final clinching of the set-to.

Just now Wilson is barred in New York State, and about a dozen other States in the Union. Although there is no ban on the titleholder in Pennsylvania, George F. Pawling, of the Palace, said today that he wanted to take the matter up with the Director before having the rincipals sign the papers.

A match with Wilson means much to Loughran. There hardly is any doubt Demonstration to Be Given at Friends' Central-Games Also Scheduled

HELPING 19,000,000 PEOPLE

About 19,000,000 people are insured in the Metropolitan-over 16,000,000 under weekly premium policies. The weekly calls of Agents at the policyholders' homes provide a wonderful opportunity for health and | welfare

The Company has accepted the opportunity and to-day is at the forefront of public bealth work in America.

14,000,000 VISITS BY TRAINED

Free nursing service is given to Industrial policy-holders in 2,800 cities d towns. Trained nurses not only heal the sick but teach right living. About 14,000,000 visits have been made-2.116,875 in 1921 alone. Numcrous letters tell of lives saved.

DISCOVERING DISEASE IN TIME

Free medical examinations often disclosing incipient disease in time to cure it, are granted to Ordinary (annual premium) policy-holders, subject to reasonable conditions.

HELPING THE EMPLOYER TO HELP

Employers insuring their employees under Group policies are advised regarding health conditions and accident prevention, while the employees receive the benefits of nursing service and welfare literature.

238,000,000 PIECES OF LITERATURE

Attractive booklets and pamphlets n great variety, dealing with the important phases of health and disease, and prepared by leading experts, are distributed broadcast. So far, 238, 000,000 copies have been distributed-25,000,000 in 1921.

In addition, 18,000,000 copies of The Metropolitan, a health magazine, are issued annually.

A CITY THAT IS WATCHED

In Framingham, Mass., the Metropolitan is leading the way in a great experiment, watched by health authorities throughout the country, to demonstrate what proper municipal health regulation can do. Deaths from tuberculosis have dropped from 121 per 100,000 to 40 per annum.

HOW WAS IT DONE?

Records kept by the Metropolitan Life Insurance Company show an extraordinary decrease in the death rate among its Industrial, or weekly premium, policy-holders. Comparing 1921 with 1911, for example, there were 55,000 less deaths in 1921 than there would have been if the 1911 death rate had prevailed.

What brought about the great saving of life?

The general public health movement progress in medical science and sanitationother causes, perhaps. But a very great factor has been the tremendous health campaign carried on by the Metropolitan itself. This page tells a part of the story.
