**LEGION POST HAS PROPAGANDA PLAN**  
Will Show Thirty-ninth Ward to Show Citizens Its Objects and Results  
**TO GIVE ANOTHER DANCE**

William T. Shetline Post 66, American Legion, has struck an innovation. A Propaganda Committee has been named to spread the name of the Thirty-ninth Ward with handbills and other literature. The purpose of this is to develop for the post a closer touch with the community and to acquaint the citizenry with the post's activities and aims.

Russell C. Geras Post No. 562 met last week at its temporary home, 1527 North Sixth street. The success of the recent dance pointed to the advisability of attempting another. Accordingly the committee was reformed. The date will be announced shortly.

Charles J. Dolan Post, of Mauch Chunk, met also last week. The principal business under discussion was the coming Memorial Day services. It was unanimously voted to assist the local Grand Army Post in its observance and in the decoration of graves.

Sergeant Ray Smith was given a dinner by his comrades of George H. Imhof Post No. 163, on Saturday evening. There were jazz and community singing, and thanks to the Ladies' Auxiliary, some 200 were dined in fine fashion.

Kensington Post No. 68 has practically finished its arrangements for the minstrel show that, in co-operation with the auxiliary, is to be given on April 28. The post has made a number of improvements to its home at 2803 Frankford avenue, among them the laying of hardwood floorings and the addition of a pool table.

The recently organized auxiliary of the Thomas B. Fales Post expects shortly to receive a charter. Mrs. Mabel B. Cleland is provisional president. Any wife, sister, daughter or mother of any Legion member is eligible for membership, and is invited to join.

Members of the Herbert Warriner Post No. 70 are proposing an ox roast, to be held shortly. What with this and the dance to be given in Fellowship Hall on April 19 membership on the Entertainment Committee of this post is a strenuous responsibility.

**ANTI-VIVISECTIONISTS MEET**  
Robert R. Logan Elected President at Annual Gathering  
At the annual meeting of the American Anti-Vivisection Society yesterday afternoon at 22 South Eighth street the following officers were elected: President, Robert R. Logan; secretary, Mrs. Margaret M. Hulvey; treasurer, Samuel Hinds Thomas; corresponding secretary, Miss Nina Halvey; board of managers, Mrs. John H. Easby, Miss Katharine S. Nicholson, Mrs. O. W. Kulling, Mrs. Robert R. Logan, Mrs. Warren E. Teyon, Mrs. Sarah Hinds Thomas, Miss Elizabeth Somers, Miss Agnes Chase, Warren E. Teyon, O. W. Kulling and J. Howard Rhoads.  
The following vice presidents also were appointed: Mrs. A. S. Logan, Mrs. Robert W. Smith, Miss C. Antelo, Miss Emily M. Tredy, Miss Alma M. Brown, Mrs. William H. Pool, Miss Mary G. Desmond, Mrs. Frank D. Geraghty, Mrs. James F. Sullivan, Mrs. R. S. Newbold, Mrs. J. L. C. Henderson, Miss Sarah N. Cogburn, Mrs. W. W. Probasco, Mrs. A. B. Chase, Jr., Miss Helen M. Rowland, Mrs. Minnie Madern Fiske, A. S. Logan, John C. Rowland, Frank Stephens and Mrs. R. F. Dotter.

**DAVIS PICKS ASSISTANT**  
George S. Hampton Selected for Assistant Prohibition Director  
State Prohibition Director John T. Davis has named George S. Hampton, connected with the John C. Hancock Coal Company, as assistant State prohibition director. "As yet," he said, "I have not received his acceptance. During my seven years' acquaintance with Mr. Hampton I have always found him a most loyal supporter of the laws of the country. He is in no way connected with the Anti-Saloon League and as far as I know has never held any political office nor been a candidate for one."

**BOY STRUCK BY AUTO**  
Run Down on the Way to School.  
Driver of Car is Arrested  
While on his way to the John Marshall Public School, where he is a pupil, yesterday afternoon, Elmo Tadlock, seven years old, of 4544 Frankford avenue, was run down at Girard and Gilliginni streets by a touring car driven by Frank L. Sidebotham, of 1329 Orthodox street, Frankford.  
He was taken to the Frankford Hospital, where it was said his condition was not serious.  
Sidebotham is connected with a tape manufacturing firm of Frankford. He was held in Scott jail by Mayor Castello at the Paul and Ryan streets station.

**After-Dinner Tricks**  
No. 122—To Make a Coin Always "Heads"  
A penny is shown lying heads up on the right hand. The coin is slipped down on the left hand, but instead of lying tails, it is still heads up.  
This is done by giving the right hand a very slight jerk to the right, while slapping it down on the left. The jerk takes the hand right out from under the coin, so that it falls heads, and the hand slapping the coin down on top traps the coin there. A little practice is necessary, but the trick is not difficult to acquire.

**Garden Gossip: What to Plant and When**  
**A FOURTEEN-CARROT MEAL!**  
That's a good many carrots for one person—but a lotta people like carrots, and they're good for the complexion.  
And we're going to tell you today how to grow 'em; also celery.  
As soon as danger from frost has passed, seeds for an early crop of carrots can be sown in rows one foot apart. As they sprout slowly, the land should be freed from weeds.  
Carrots require little thinning, but careful, clean cultivation is necessary and drought is to be especially avoided. Later crops may be sown in May or June and treated like the early sowing.  
Now as to celery.  
Very rich, deep soil is required. Sow in open ground now. When three inches high, plant in a bed setting them three inches apart each way. In July transplant them in the places where they are to develop. The tops should be shown once or twice before transplanting to insure sturdy plants. Half of the roots should also be cut off before resetting.  
Place the plants six to eight inches apart, in rows three feet apart. See that the roots are properly armed by pressing the soil by the side of each plant gently with your feet. This compacts it and causes the roots to grow until new roots are formed. Free the plant of weeds.  
About the middle of August begin the gradual "earthing up" necessary for blanching and softening of the stalk which is wanted for use during the fall.  
The first operation is that of "hand-ditching"—that is, after all the loose soil has been drawn up against the plant with a hoe it is drawn closer around each plant by the hand, firm enough to keep the leaves in an upright position and keep them from spreading. This being done, more soil is drawn against the row, either with plow or hoe.  
Tomorrow lettuce and radishes will be discussed.

It is Thirsty Fibre (cellulose of high grade Scotch Towel) who absorbs four times his weight in water and is responsible for that substantial, thirsty, absorbent quality found only in Scott's Tissue Towels

**Thirsty Fibre**  
**Thirsty Fibre—They Dry**

**"Clean Hands in Business"**

**THIRSTY** Fibre and the soft, white, comfortable, remarkably absorbent Scott Tissue Towel he makes possible, constitute our contribution to the clean hand idea. Yet, appreciating the psychology of clean hands in business—realizing that morally and physically they go together in public judgment—you can and will want to make a further contribution by placing in your washrooms a towel that was produced—and performs—solely upon a clean hand basis.

For years, the Scott Paper Company has pioneered in making the possession of clean hands possible—and a pleasure. We have made a clean towel—the Scott Tissue Towel,—the only towel in which Thirsty Fibre, who absorbs four times his weight in water, can be found.

Scott Tissue Towels are ideal for wash-room service. They promote cleanliness and cleanliness promotes efficiency.

Write or phone to the following address for full information.

**You Cannot Have Too Many Safeguards Against Investment Losses**

Unsound securities and dishonest promotion schemes are by no means the only possible sources of such loss. Under certain market or general business conditions the soundest stocks and bonds may well bring temporary embarrassment or permanent loss to the too optimistic investor.

In this connection may be suggested the value of this Company's service in its Agency Department.

Under an Agency Arrangement the individual benefits by the collective judgment and experience of a staff dealing with financial affairs and having at its disposal many sources of information not available to the average investor. All advice given regarding investments is of the impartial and conservative character to be expected of officials concerned with the management of trust funds.

In addition to the security afforded, relief from the anxiety and burdensome detail incident to the proper management of investments, is to be considered.

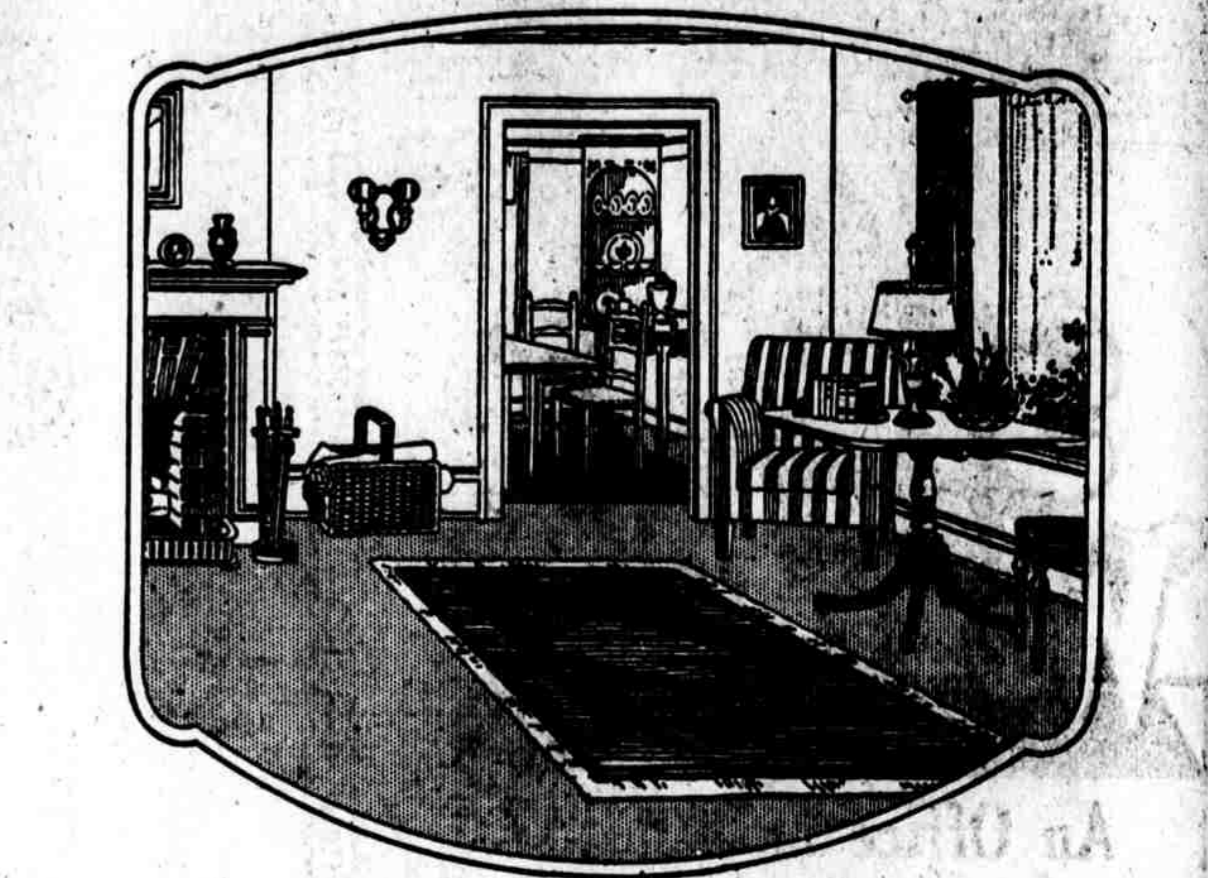

A consultation may very possibly reveal a form of Agency Arrangement that will exactly suit your particular requirements. The fees charged are moderate.

**Armstrong's Linoleum**  
for Every Floor in the House

**Her neighbors were surprised**  
They did not know such a floor as this was possible

**THEY** had linoleum in their kitchens, tacked down. But here was a floor made with a kind of linoleum they had never seen—not tacked down, but cemented down firmly over builders' deadening felt.

It was quiet and restful to the tread. Firm but not hard. Easy to clean, and in color harmony with the furniture and decorations. It made a perfect setting for the rugs. It looked more like a real floor than any floor they had ever seen.

People who have seen modern linoleum floors laid in the proper way have a new idea of linoleum and a new idea of beauty, durability, economy and comfort in floor-making.

We have a little booklet, "Decorative Linoleum Floors," containing twenty-four colorplates, showing Jaspés, carpet inlaid, parquet inlaid, marble tiles, printed designs, etc. This booklet will be sent free on request. You can take it to a store and show the merchant exactly what you want to see. Any store will give you estimates of the cost of Armstrong's Linoleum [put down in your home.
