21 YEARS OF KNOWING HOW

Start Your Addressing System This Way

This is the No. 4 Rotary Belknap Addresser, a hand machine for small businesses. Speed 1,500 to 1,800 per hour.

This is a Belknap 15-Drawer Metal Cabinet in which the Printing Stencils are filed.

FOR the business of modest size, or the one whose addressing requirements are limited, a Belknap Hand Addresser and a single filing cabinet will provide the correct start for an efficient addressing system.

We are going out of our way to emphasize this point, because some business men still persist in considering the important subject of Addressing only in terms of large equipments and lists of a million names.

It is not necessary to be a Curtis Publishing Company, or a mail order house like the National Cloak & Suit Company to employ the Belknap System of Addressing profitably.

If the handling of lists and the writing of names on envelopes, wrappers, statements, order forms, shipping tags, tax notices, receipts, etc., is a part of the day's work in your business you need a Belknap System.

More than that you are paying for one, too—continually, unendingly and uselessly—in leaks and losses due to old-fashioned, time-and-money wasting methods that ought to be stopped.

Phone Walnut 5641, or write today for an appointment with a Belknap service man. There's a descriptive booklet that is yours for the asking, too.
