You could go direct but you zigzag

YES, and you pay high for it. And you don't enjoy it. And this is certainly no year for waste, anyway.

What's the matter? No initiative? Leaving it to somebody else?

Take an inventory of your office costs. Make a chart of all the zigzagging a letter has to do—clerk to desk, desk to you, you to note-book, note-book to typewriter, typewriter to you, and out.

Think you know all about "dictating machines"? (You don't, though.)

Every action of Mr. Edison's newest help for business is electrical.

Take that inventory.

Then take 10 minutes of our time and find out whether this is all it sounds like. We will call but once unless you ask us to return.
