N OPPORTUNITY such as no city ever had is now yours. A For thirty-five years you have maintained the Temple University until it has furnished an education of College grade to more than 100,000 industrious students. The time has now come to give its great advantages to all the young people above the common school grade. In its success Catholic, Protestant and Jew are alike to be benefited. With its full-time and halfday departments for working people and present enrollment of 8100, you have now the chance to make Philadelphia the best educated city in America. Each of the following departments needs at once another building:

The College of Liberal Arts and Sciences

The Teachers' College The College of Commerce

The School of Law The School of Medicine

The School of Dentistry The School of Pharmacy and Clinical Research The School of Music

Who will construct as a memorial or endow one of these buildings? President Conwell will be glad to confer with any generous citizen concerning this great object.
