WANAMAKER'S

Never have we had beads with such a depth of color, such a soft glow of pearly whiteness, such beauty! And for only \$5!

They're as durable as they are beautiful, too, for we have tested them thoroughly, boiling one string for twenty minutes. You can see these "boiled beads" at the counter and you'll find that they have not lost one whit of their luster or beauty. That augurs well for beads that are destined to be worn in warm weather.

We can also show you the beads before they are coated with the fish-scale preparation which gives them the appearance of pearls, and there is also a bottle of the preparation for your inspection.

All of these \$5 beads are in a lovely creamy shade, evenly graduated, and finished with a 10-karat gold clasp. 24 and 27 inch strings.

A great many people have learned to say "No" to tea or coffee at noon and at night-learned it at the cost of jumping nerves and disturbed digestion.

Thousands of others who passed through that stage have learned to say "No" to tea and coffee all the time, and have found a most satisfactory "Yes" in Postum.

Postum's full, rich flavor delights the taste and meets all the demands for a hot, mealtime drink, and it contains no element that can harm anybody. Even little children may share in the delights of a hot cup of Postum with any meal.

Whether or not the thein in tea or the caffeine in coffee has begun to serve warnings on you, you can profit by the experience of others and by the information which any doctor can give youand find charm without harm in Postum.

Suppose you make the test for ten days, with well-made Postum, and compare the "feel" with your former experience with tea and coffee.

Your grocer sells both forms of Postum: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.
