# Wherever There's Se There's Bound to Be Easter Happiness Much Easter Loveliness

The West Coast and the Gulf are not so well known as other parts of Florida, but well worth becoming acquainted with, for its soft, dry air, resembling in climate that of Biarritz, fashionable resort of aristocratic people of France and Spain.

Its inaccessibility by the roundabout rail service is partly the cause of it, but it is well worth the trouble to get to St. Petersburg, and from there take an automobile or short boat ride to Pass a Grille, yet in its infancy as a resort for a quiet Summer holiday; or go by boat to the dignified village of Sarasota.

The months of our cold northern weather from late November to the last of May and even June are most delightful.

The eyes are rested by the outdoors beauty, and the throat and nose can live without colds and coughs, and the poor, overworked body loses the sense of being always tired.
