Unsightly skin trouble on

face-fresh yeast rids you of them

Itis well known that blemishes and ackheads (acne) and boils are often caused by errors of diet.

Pleischmann's Yeast is now being recommended for these embarrassing and sainful skin troubles because fresh yeast corrects the errors of diet which cause them.

The surgeon of one important York hospital states: "I have used yeast extensively and found it invaluable in curing boils." When 17 cases of skin blemishes were treated with Fleischmann's Yeast at hospitals in New York and Philadelphia the results were remarkable. A typical case was a oung man who had suffered from skin disorders for three years. He ate three cakes of Fleischmann's Yeast daily. In five weeks the erup-

tion had cleared completely. If you are troubled with eruptions or boils, begin at once to correct them by eating 2 or 3 cakes of Fleischmann's fresh yeast daily before or between meals. Be sure it's Fleischmann's Yeast - the familiar tinfoil package with the yellow label. Place a standing order with your grocer for Fleirchmann's Yeast.

Sesqui-Centennial." Mr. Robins said.
"I can say positively that neither the board of directors nor the executive committee of the association has invited any one to become director general.

"From time to time a particular person has been suggested for the post, and there may have been informal discussions on the subject of a director so that a very well-known American capitalist would be willing to give a milbon dollars or the dictionary defines it.

Look it up. You will know actually how much it means if you do.

Competent help is as useful in every sician or surgeon who would help him so rare that it gains recognition very quickly. But it must be competent. It must consist not only of willingness. It happened that it couldn't be done, and of a certain cheerful enger.

cussions on the subject of a director so that particularly high-priced help done, and of a certain cheerful eager-ness that that far.'

Mr. Peck was a director of the World's Columbian Exposition in 1893 and American Commissioner to the Paris Exposition in 1900.

I happened that it couldn't be done, but of knowledge of how the job is done, and of a certain cheerful eager-ness while it is being done.

There is always a market for that kind of help—no matter whether the times are good or bad. There is also that had helped him pile up his fortune, and every one of them had made considerably more than a million dollars each now and then, and at very low price.

was worth.

If you can show the man you are he will make your help worth while. If he is a fool, it will pay you to get an-

help of other men. Finding gold or \mathbf{H}^{ELP} means co-operation. It means regard to the report that coal mines or winning money in the $\mathbf{H}^{\text{Willingness}}$ to do things that other people have not the time or the dispo-sition to do. It means, in short, what

tolian provinces to Turkey and to evacuate Russian Armenia.

This treaty was effective, so far as its continuing provisions were concerned, however, only so long as Germany remained in the war. With her defeat and the conclusion of peace with the Allies, Germany, in the Treaty of Versailles, agreed to accept the abrogation of the Brest-Litovsk and all other treaties entered into with the Maximalist Government of Russia, to recognisits of the Covernor, the Voters' remains to Turkey and to evacuate the headquarters of the Twenty-eighth Ward Independent Republican Club, where David G. Pennick is the Pinchot and former Fisher forces in Philadelphia is expected this afternoon at a meeting of the Voters' League.

Until John S. Fisher, former State Banking Commissioner, retired from the field as a candidate for the Republican Club, where David G. Pennick is the Pinchot and Former Fisher forces in Philadelphia is expected this afternoon at a meeting of the Voters' three-year-old girl that she had been kidnapped from the sidewalk and later thrown from the machine to the street, treaties entered into with the Maximalist Government of Russia, to recognize the full force of all treaties entered into by the allied and associated Powers with states which were a part of the former Russian Empire, and to recognize the frontiers as determined therein.

It was added that the Powers re-served the right of Russia to obtain restitution and reparation on the princi-ples of the Versailles Trenty.

KIDNAPPED HER IN CAR Case Against Governor Slated

police are today making every effort to run down the machine and the four men who were in it.

Four young men saw the girl thrown from the car at Wistar street and Clarkson avenue last evening. They found her conscious, but unable to walk, and had her sent to the Germantown Hospital, where physicians think she has a fractured skull.

She gave her name as Norma Missimer, of 5724 North Lambert street. Her parents are Mr. and Mrs. Frank L. Missimer. She is a clerk in a mailorder house.

Her parents are Mr. and Mrs. Frank
L. Missimer. She is a clerk in a mailorder house.

According to her story told to police
and physicians, she had been with a
party of friends at Point Pleasant yestenders and had attumed to the city and terday and had returned to the city and had dinner at the home of a friend, Josephine Fursterman, 540 Chew

She said she was walking home when She said she was walking home when the four men in an automobile drew up alongside the curb, and one got out and said "Good night." This, she said, occurred at Sixteenth street and Olney avenue. Then she said the car stopped a short distance ahead and the three men gout out and lifted her into the automobile.

"I screamed when the men took me into the car." said the girl, "but the men put their hands over my mouth. Two or three times I told them to take To Take Bullet From Lenine

London, April 17.—Professor Borchardt, of the Monbit Hospital, has gone to Russin to operate on Nikolal Lenine, the Bolshevist Premier, for the extraction of a bullet lodged in Lenine's shoulder in the autumn of 1918, when he was fired upon by the student, Dora Kaplan, says a dispatch to the Times

ATLANTIC Jasoline *is* Dependable

Nothing is so essential to dependable motor performance as good gasoline. But what is good gasoline?

To meet the widely varying operating conditions that speed, load and temperature impose, a gasoline must have more than volatility, more than potential calorific power, more than purity. It must have balance; and range. And uniformity!

There is no mistaking these qualities in Atlantic Gasoline. Atlantic contains not only the lighter or more volatile elements required for quick and positive ignition; not only the heavier energy-producing fractions-but a scientifically balanced combination of both.

Its uniform "chain of boiling points" gives Atlantic sureness of action, fullness of power and an efficiency range not exceeded in any other gasoline on the market.

Atlantic is made for present-day motors. The results of half a century of refining experience are summed up in it. It is dependable because it is RIGHT. And because it is always uniform!

ATLANTIC GASOLINE Puts Pep in Your Motor
