CHURCH FACTIONS WORRY BARRINGTON

Move to Oust Presbyterian Minister Encounters Strong Opposition

TWO PETITIONS PRESENTED

The town of Barrington, N. J., is in a turmoil over the efforts of a faction in the Presbyterian Church to oust the Rev. W. T. Pannell, the minister, and another faction to keep him in his post.

Two petitions have been presented to the Presbytery of South Jersey, which received them while in session at Woodbury. One demands removal of the minister, another demands his retention.

The trouble, it is said, arose over the refusal of the minister to allow meetings of the local lodges of P. O. S. of A. and P. O. of A. to be held in the church basement, as has been the custom in the town. Many persons, members of the lodges, but not members of the church, signed the petition demanding the clergyman's removal.

The entire matter has been placed in the hands of a committee, which will go to Barrington and conduct hearings. Upon the committee are the Rev. Dr. H. H. Gage, chairman, of Wenonah; the Rev. Dr. Robert Hugh Morris, of Haddonfield; the Rev. James H. Kerr, of Haddon Heights; the Rev. George Kane, of Audubon, and the following laymen: Charles W. Henry, Haddonfield; E. L. Seabrook, of Camden, and W. Sheppard, of Camden.

Mr. Pannell declined to discuss the charges today, saying the entire affair is in the hands of the committee, and he preferred not to say anything about the charges in advance of their investigation.

"Some people have made trouble for all ministers who have come," he said. "The trouble goes back for a number of years. When each of the ministers saw it coming he got out. I am not built that way. These matters will be dealt with, the church will be established, and right will prevail. Our congregation is growing, our finances are in fine shape. The trouble is due to an outside element."

SISTERS OF ST. JOSEPH RECEIVE 48 NOVICES

Young Women Take Veil at Ceremony at Chestnut Hill

Forty-eight young women took the veil yesterday, being solemnly received into the Order of the Sisters of St. Joseph, at St. Joseph's Convent, Chestnut Hill.

The new chapel was elaborately decorated with palms and ferns, and the sanctuary was a mass of Easter lilies and white roses. Cardinal Dougherty and Bishop Crane were unable to be present because of the quarterly conference of the clergy, and the ceremony of reception was performed by the Rev. Nicholas Vasey, of Chestnut Hill, provincial of the Augustinian Fathers.

After-Dinner Tricks

No. 140—A Dime and Two Nickels

Two nickels are placed side by side and a dime is laid near them. The problem is to put the dime "A" between the nickels, "B" and "C," without moving one and without touching either.

The trick is done by giving the dime a sliding push along the table. It strikes the first nickel, but does not move it, the force of the push being expended to the further nickel. This will slide a short distance away, leaving ample space to place the dime between

Cocunut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulitised coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply put two or three teaspoonfuls of Mulitised in a cup of glass with a little warm water, then moisten the hair with water and rub it in. It will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulitised coconut oil shampoo at any drug store. It is very cheap, and a few ounces is enough to last every one in the family for months. Be sure your druggist gives you Mulitised.—Adv.

The TRUTH about THE NOISELESS

TWENTY-FIVE YEARS AGO the typewriter was blind. You had to lift the carriage to see what had been written.

Then visible writing was invented. It was a great step toward speeding work—getting more and better work.

The Noiseless Typewriter represents the most radical improvements in typewriter development since the visible machine. It brings quiet—greater speed—more beautiful work—easier operation—greater economy and durability.

Every one knows that concentration of thought is essential to success in business. Irritating typewriter noise destroys the quiet that permits concentration of thought. Hence, typewriter noise impairs the business man's best asset—namely, his thinking power.

The Noiseless is recognized today as the "silent partner" of increased production. Its triumphant success is due to the fact that, at every point, it means **PROGRESS!**

QUIET
 The Noiseless is quiet. It neither interrupts nor disturbs. It eliminates nerve strain.

SPEED
 The Noiseless is the *fastest* stock typewriter in the world. It has the lightest touch of any typewriter and can be operated with the least fatigue.

QUALITY
 Perfect control of the keys assures beautiful work, with even spaces and accurate alignment. Adjustable pressure dial permits the making of clear and numerous carbon copies.

ECONOMY
 The Noiseless is the most economical typewriter you can buy. It saves valuable minutes because it can be operated constantly—even when you are talking over a long distance phone. The metal platen does not require replacement.

DURABILITY
 Increased durability is brought about by the elimination of the hammer blow method of writing. This decreases wear and tear.
