SCANT HOPE OF PEACE SEEN

By the Associated Press

Dublin, April 20.-Last night was the worst Dublin has experienced since Easter, so far as noise is concerned. The residents were kept awake by continuous rifle and machine-gun fire and the noise of military lorries rushing to the relief of places attacked. Only three casualties were reported on both sides and there were no deaths.

Beveral buildings occupied by the Provisional Free State Government, and guarded by official troops, were attacked, according to last editions of the morning newspapers.

The headquarters of the Provisional Free State Government in the College of Science were attacked from front and rear, but, despite terrific firing, entry was not effected. The City Hall and telephone exchange also were heavily assaulted

According to reports from an independent source, midnight had scarcely passed when heavy volleys of revolver lin. 79 Wister htreet, Germantown. shots were heard from Quay and Connel streets, while opposing parties exchanged dozens of shots up and down believe she committed suicide while the middle of Abbey street. Firing was also observed from the old general post-office at Connel street and Parnell

Armored Cars Appear

Occasionally the short, sharp cracking of revolvers and automatics was almost silenced by the heavier reports of rifles. and later, when armored cars belonging to the regulars appeared, there was the

quick discharge of machine guns.

At about 12:30 o'clock there was a comparative lull in the battle, but twenty minutes later several rapid volleys were heard in the vicinity of O'Connell Bridge. The uproar soon subsided. The uproar soon subsided. and, except for an occasional revolver shot, quiet was restored there shortly

fter 1 A. M. Meanwhile similar firing of considerable intensity, accompanied by bomb explosions, was heard in other parts of the city, especially in the acighbor-bood of Kings Inn, garrisoned by troops acting under the authority of the general headquarters of the Irish Republican Army, but it is not known whether the building was attacked.

A statement from official sources say Brigadier General Slattery and a party of men in uniform in a car were fired upon near O'Connell Bridge at about 11:30 o'clock last night. The car was riddled with bullets and one of the pasengers wounded, later being conveyed to the bospital.

Center of City Patrolled

Armored cars later patrolled the eenter of the city, and everybody on the streets was searched. A party of men in an open motor car speeded up when challenged by troops in an armored car, and were pursued and fired upon by the

Many of the windows in the telephone exchange were smashed by bullets, and work there was suspended for an hour. Regular forces patrolling Grafton street were fired on from roofs of houses in Bridewell lane.

Later another party of regulars conveyed a priest to the hospital in a motor girl, went again to see her son. She car, escorting him in an armored automobile, because of the dangerous condi-tion of the streets.

By the Associated Press Baltimore, April 20.—Women of all the Americas, who assembled here in conference today, turned their at-tention to the question of child wel-fare following formal ceremonies of

welcoming.

This has been one of the main departments of work of the National League of Women Voters which issued the call for the conference. Education, the problems of women in industry, the civil status of women, the prevention of traffic in women and the political status of women also will be considered at the conference, as the league takes at the conference, as the league takes the point of view that all these questions concerning women have grown from their purely local and national aspects and are of international im-portance.
