mers Should Stick Together blac Battor of the Scening Public Ledger: Bir--The charge that the new tariff intends to levy duties on manu-netared articles based on American sets of production while duties on grieuitural products are based on oreign costs of production is only an-ther reason for farmers asking each ther, "Why do we not stick to-mber 2"

Our Government was founded on a mentimental slogan. "Liberty or death?" cried Patrick Henry—and ave treavel liberty. That is, we obtained freedom from the oppressors who were then squeezing us as one would a

sponge. But the liberty we secured from op-pression also gave liberty to every unan-to look out for his own interests. It has progressed until how combinations of men are at liberty to look after their own interests. The manufacturers do this by "sticking together"; and so long as the farmers continue to "stick spart." so long will their interests be overlooked. HIRAM HAYSIEED. Conshohocken, Pa., April 21, 1922.

Tide of Democracy in China

To the Educe of the Evenue Public Ledger: Sir-Probably all leaving Public Ledger: Sir-Probably all leaving Philadel-phia journals of the last week brought out the fact that the could of civil war is about to break out in China. Unfortunately many of our sympathetic American friends have taken this fact merely as the proof of our national hopelessness and perpetual lethargy. One of the Philadelphia papers of the 20th went so far even as to say that China is not yet prepared for an occi-dental form of democratic government. that we need, at present and for un indefinitely prolonged time to come an energetic despot, even an emperor, to subdue all militarists and dictate the country in order that China may have rest. the Editor of the Evening Public Ledger:

subdue all militarists and dictate the country in order that China may have rest.
This statement is so unjust and far from all fact that I cannot accept it without a great deal of suspictor. We appreciate the sympathy of the writer, but he is evidently not aware of the situation of our country; for it was this very idea of our need of a strong despot that a few years ago gave Yun Shi-kai a chance to enthrone himself, and stirred performers. Now, this method of coming back to one man's China had been applied and failed again and again; and the only result we obtained was the retarding of the york of the republie and doublings of the work of the reformers. Now, should either Chang Supremacy you will see that there is another, sooner or later, who springs proto defeat him; because the Chinese poid eas a whole, including the militarists, are tired of a despot. No one is nore familiar with a despot that we have enough of it in the last free thousand years. Now we want a chance to guide ourselves with our own wings, which we never have had before.
The would be wort do fail the failure of Yun Shi-kai was not due to the shortness of his life of and shortness of his life of and the of the attack of another despot who was not due to the shortness of his life of the attack of another despot who was not due to the shortness of his life of the attack of another despot who was not due to the shortness of his life of the attack of another despot who was not due to the shortness of his life of the attack of another despot who was not due to the shortness of his life of the attack of another despot who was not defeated by the army of General Tun Chi-ju. but the outery of "Down with the traitor" of all twenty-two battain the stage of prosperity and peace at the change of moment is not ready.

Therefore, China fails to itain the stage of prosperity and peace of because the people are not ready for a democratic form of government. but because the militarists are in our way, but the militarist does not repre-sent China. Would you say that China should not. at present, have a democratic government because there are ten or twelve men who are not ready for

DHYSICALLY clean hands have always been associated with the thought of morally clean ones and the Scott Paper Company has devoted its best years to making physically clean hands easier to attain.

ScotTissue Towels are synonymous with cleanliness. The drying qualities of ScotTissue have been accomplished through Thirsty Fibre-the medium that gives ScotTissue and ScotTissue Towels alone that most distinctive, thirsty, absorbent characteristic so es-

sential to a real drying towel. It is Thirsty Fibre (millions of him) in each genuine ScotTissue Towel that instantly and so satisfactorily absorbs the moisture from your hands and face. No other towel is like Scot Tissue-because no other towel has Thirsty Fibres.

Aside from its great drying power, you can be sure of a genuine ScotTissue Towel only by the imprint of the word SCOTTISSUE on every ScotTissue Towel. If the towel you use is not imprinted SCOT-TISSUE, it is not genuine.

er twelve men who are not ready for it? It is true that China needs a rest from the militarists' annoyance which had so long ravaged the country, but we will not employ a lion for the pur-pose of chasing out a tiger. It is the responsibility of the Chinese people to wipe out all shamefulness of the mili-tarists, and that is the very task we are accomplishing in South China under the leadership of Dr. Sun Yat-sen. It may take a long time or many more failures, but we will not adopt the let-go policy until we shall have sot what we have so long been trying to get. There is no honor for a battle wen from a pillow-case. Tr. Sun Yat-sen, on the other hand, is not a militarist. He is merely the militarists. So purely Americanized, henest, upright and patriot is he that we Chinese of all foreign countries are rushing to help him in his recent ex-pedition against the Pekin Government. The rent of all Canion has been given to him for his soldiers without his saking for it. A large contribution from in Shanghai reaches him unexpectedly. He was, a month ago, welcomed to kwai-lin to form his headquarters by was conquered by Sun's troops not bupport given to him continuously by Chinese in various foreign countries.
