

OILS THE STRONG FEATURE ON CURB

Group in Urgent Demand, Many Issues Rising to New High Prices for Movement

New York, April 29.—The market on the Curb moved in unison with that on the New York Stock Exchange, oils being in urgent demand. Many of those issues rose to new high prices for the movement.

Other oil stocks showed activity and strength, a feature of the independent issues being Mexican Standard, which rose from 4 1/2 to above 4 7/8. The Wyoming oil group was also active and strong, Salt Creek Producers advancing to above 18 and Salt Creek Consolidated making a further gain, both making new high records.

International Petroleum was heavily traded in and ranged from 20 1/2 to 20 3/4. The industrial issues were irregular. Beechnut Packing was traded in at 20 1/2 to 20 3/4. Duffiler Condenser and Radio ranged from 8 to 8 1/2.

Radio moved up a substantial extent and gains were made virtually all through the list. Philip Morris was one of the strong features, holding close to its recently established high record.

Radio issues were again traded in on a large scale with the common stock selling at 6 to 6 1/2.

FURTHER PROGRESS IN WEST'S TRADE

Steel Industry Distinctly Encouraging—Retail Business Outlook Improves

Chicago, April 29.—Business in the West showed further improvement in several quarters during the week. The steel and iron industry is making progress in the West, and there is a growing demand for building materials, which is stimulating kindred lines of trade.

Wholesale houses forwarded favorable reports in most instances, and the retail trade outlook is said to be encouraging. The buying in nearly all lines of general merchandise, clothing, boots and shoes and similar lines has been indicative of a prosperous state of trade.

Agricultural conditions are not held discouraging, although the spring is a little backward. Prices are holding fairly well, and the live stock industry is a source of big revenues to the feeders, as prices are high compared to grains, which makes feeding of hogs and cattle unusually profitable.

Money conditions are easy and there is no lack of funds for investment. Banks report conditions generally improving with many loans liquidated as a result of the advance in the price of bonds, especially in the prices for Government issues.

Despite numerous strikes and other handicaps which have prevailed during April, business has recorded a decline gain. Recovery in depression is pointed out, has been in progress for a year, but only in recent weeks has it become sufficiently broad and distinct to compel general attention.

Previous conditions and unattractive factory phases have by no means been eliminated in the right direction. While there is no uniformity to commercial dispatches, and it is clearly evident that major movements are in the right direction, the constructive forces operative, the strengthening of confidence, upon the whole, is regarded as largely dependable, has continued, and the outlook is decidedly bright.

The father hatched very irregular still seems best to describe the varied class of reports as regards weather, trade, industry, and even the price of raw materials. Generally speaking, cold weather with killing frosts, heavy rains, and early snows, or heavy rains, and floods in many of the country's streams, and country roads are still closed, with retarding retail trade, farm work and crops, while the business of the country is proceeding from the coal, textile and other labor troubles are obstacles to what would otherwise be the best industrial situation in nearly two years.

Raw Sugar Market Stronger New York, April 29.—There was a stronger line in the raw sugar market. Sellers were inclined toward better prices. Sales reported were 10,000 bags for June at 2 1/2 to an operator, 5000 bags for June at 2 1/2 to a refiner, at 5.90 c. l. f. to a refiner, at 2 1/2 c. cost and rest half of May shipment. Cuba, May loading, at 13 1/2 to United Kingdom. Imports, in trade, 8000 tons to the American Sugar Refining Company. Futures were nominally unchanged. The refined sugar market was very quiet. Little business being reported and no further price changes.
