His cold gray eyes swept her from head to foot. He noted the slim girlishness of her bare shoulders, the weight of her tawny hair knotted up loosely on her small head, the slim silken-clad ankles and the long. slender feet in their gleaming silver

It is a difficult thing to shine heads that have tarnished, when they are on a dress, because the thing to use is sweet oil, and that is apt to get on the dress. If you were careful to put just a few drops of the oil on a soft cloth, you could do it, though, Afterward you should polish with finely powdered emery.

Please Tell Me What to Do By CYNTHIA

To "A Constant Reader" Cynthia is so sorry for you. Can't you tell your husband that you are not happy there, and that, under all the circumstances, you think it would be better to move away? If you can't convince him of this, try to get some outside interest. Join a class in literature, or sawing or cooking at the Y. W. C.
