Pistol Fight Follows Bombing of Two Buildings—Landis Award Resented

By the Associated Press  
Chicago, May 10.—Two policemen were shot and killed, another wounded and two buildings bombed today in the shooting which followed a running battle between labor and police. The shooting was followed by a running pistol fight, in which the police killed three laborers, chief of police Charles C. Fitzmorris, chief of police, immediately ordered every patrolman on duty and directed that all labor leaders of whatever caliber be brought in. He also ordered the detention of every one who may have any information of the workings of labor attacks," he said. The dead are: Terrance Lyons, acting lieutenant, and Patrolman Thomas Clark. The wounded man is Patrolman Albert Mueller. Although the killings and bombings were in different parts of the city, police believe they were directed by a single hand, desiring to express resentment against the enforcement of the building award handed down by K. M. Landis, former Federal judge. The buildings bombed were a garage and a printing plant. Patrolman Clark, who was guarding a building previously bombed, was notified of the garage bombing and a few minutes later a taxi driver notified police that three men were fighting with Clark. Officers found him fatally wounded. He died on the way to the hospital. Police believe Clark was killed by a man who Monday night showedred the man with tricks and escaped in an automobile. Later Lieutenant Lyons, seeing a car speeding past a traffic signal, commanded it to halt. The occupants aimed a volley of shots which wounded Lieutenant Lyons and wounded Patrolman Mueller. Since the labor war began thousands of dollars' worth of property has been destroyed and scores of persons injured.
