MOTORS AND THE PARK
WHEN following the recent decision by
Judge Ferguson, the Fairmount Park
Commissioner abrogated a series of special
regulations which had formulated a code to
regulate motor traffic, it abrogated little
that it cannot get along without.

WHITMAN'S HOUSE
THE special committee of the Camden
City Council, which has been appointed to
"make a survey" of the little house on
Mickle street where Walt Whitman lived
and did most of his work, will have no easy
time of it.

ARMORED TAXICABS?
GOOD news might be found, after all, for
some of the artillery taken from battle-
ships discarded by the Government in ac-
cordance with agreements reached in the
Conference for the Limitation of Armament.
The guns might be mounted on taxicabs
for the safety of folk who have to go
about the city at night.

LEEWAY FOR BUSINESS
THE time has passed when any extensive
organization of business was supposed
to be somehow dangerous and even criminal.
But in justice to Congress it ought to be
remembered that the Sherman law, the
Clayton act and the Federal Reserve Com-
mission were designed not to hinder in-
dustrial organization, but to check abuses
of power that comes with the pooling and
steerage of interests among allied business
groups.

President Harding, completed on the eve of
the World War, is being denied by

the imminent arrival to our shores of that
White Star fleet queen Majestic.
This enormous floating caravanserai ex-
ceeds the Leviathan in name is somehow
adhesive about 100 tons and represents the
climax of the German effort to outdistance
all competitors, and especially the British,
in the merchant marine field. The Majestic,
now speeding westward, was to have been
the Bismarck and the giant of the Ham-
burg-American fleet. British owned and
manned, she is none the less a product of
Teutonic marine engineering and Teutonic
shipcraft.

the Growth of the City

ONE of the satisfying outcomes of the
Sequel-Centennial Fair will doubtless
be the improvement of the banks of the
Schuylkill River north of Market street.
There seems to be agreement that what
adornment of the river banks is undertaken
for the fair shall be permanent and in ac-
cordance with a general plan for beautify-
ing the stream.

SHIPPING MUST GET AID
THE emphasis which the Foreign Trade
Convention now meeting in this city
has laid upon the necessity for protecting
and developing the American merchant
marine is in principle almost identical with
the arguments which President Harding and
the Executive Administration are endeavoring
to instill in the somewhat unresponsive
minds of Congressmen and Senators.

THE education of the vice chairman of
the State Republican Committee, Mrs.
Helen C. Cornman, that she was not offi-
cially consulted when the Republican
State Committee decided to adopt as its
candidate for Governor was chosen, and
was therefore not responsible for him, is based
on a technicality. It is a technicality which
from the Governor down to the division
would care to have ignored where he was
concerned.

SHORT CUTS

The really big circus is a one-day affair
next Tuesday.

Perhaps some of these days we'll have
an "Ordinary Guy's Week."

Judging by the darkness of the hour,
dawn must be close at hand in Ireland.

When Muratore quits tending as a
wren, he may get a good job as a
great agent.

Rutherford, N. J., man fined a nickel by
Federal Judge for having beer. Pre-
sented rates.

As the State superintendent of the An-
tislion League sees it the issue is Topo-
graph.

In Tarbell recently lectured on "Women
in Industry." Expert opinion by industrial
woman.

Perhaps the location of the suggested
new penitentiary is at the end of Audie
Main street.

Isadora Duncan and her young post-bu-
band are honeymooning in an airport.
Poetry of emotion. More fancy flights.

The boy with the reddest hair in town
may win a bicycle by marching in the
Dor-Week parade. Wish we had a sorrel top.

Danish emotional actress commits suicide
rather than be a performer in burlesque
plays. One star part and then the final
curtain.

Panama man in New York hospital is
having part of his chin bone grafted on his arm.
This ought to make him proficient in the sign
language.

Army man has invented a small machine
gun that can make junk of an automobile
in a minute. But any fool can do that with a
fireplug.

British oil man says there is enough of
underground to last for centuries. The
shell will not lock for light, heat, power or
scraps.

Poor peckin' old Pekin's persistently wrong.
Dreams of reformers good dreamer.

Kansas City bankrupt asks the court to
allow him to retain the family Bible and a
set of golf sticks. How do you suppose that
man spends Sunday?

Anthropologist says New York's statue
of "Circus" is a "The Rough Guy" if a
moron. Does this mean that Sculptor Mc-
Monnies is a sly satirist?

The per capita circulation May 1st was
\$48.50, ninety-two cents less than on April
1. Now what, we should like to know, did
we do with that ninety-two cents?

Gandhi sees England's steampipe to fit
his Ireland is concerned. Perhaps Dr. Valera
can see it so far as India is concerned.
Switched conference might bring-anti.

Though it may be said for the Lakewood,
N. J., lion that is trying to hatch something
from the clock-faced egg that she is a
girl aviator, we suspect she is afflicted with
rick.

Farmers' attack on former President
Wilson is quite in line with his record on the
bonus and the tariff. That is to say it shows
more zeal than good taste, good sense or good
judgment.

A nation-wide campaign to bring
back the Agriculture Commission of
the American Bankers' Association to stimu-
late the interest of bankers in agricultural
interest, he it noted, net rate of interest.

The girl of eighteen today has a wider
