Steel Magnate Discusses National Problems Before American Institute

ADVOCATES TARIFF BOARD

By the Associated Press New York, May 26 .- Elbert H. Gary, his annual address as president of American Iron and Steel 'nstitute. in session at Hotel Commodere teday, advocated that Congress take the tariff out of polities, that it play no favorites in its tendency to regulate things; that it substitute a sales tax for the income tax and that it forget the soldier bottus

until the Nation is less severely ourdened financially. As for the business future of America, Mr. Gary described himself as "still an optimist." In the iron and steel industry, he said, "the profes are steel industry, he said. "the profes are the current year the street railway cornut satisfactory, but few, if any, ought to be doing business at a loss."

"Pity the blind, deaf and foolish a total tax of \$3,167,744.70 on their pressumst of the United States. he adsured members of the institute."

fred members of the institute.

In a remark which he said was inserted "as a tone of consolution and ope," the steel ungmate asserted. Congressmen are like the ordinary run individuals most of them honest and ell intentioned, but a few are posessed of less merit.

"The idiosyncrasies of individuals occupying places in legislative bulls are no letter and no worse then they are other places. Revision of pariff laws is "an inter-mittent disease" which "seems to be an important political question though pronghr not to be," the speaker declared For a time, he said, it appeared the subject was being publicly discussed with a view to settlement "more than the processing and treatment to be a settlement to the processing and treatment to be a settlement to the processing and treatment to be a settlement to the processing and treatment to be a settlement to the processing and treatment to be a settlement to be a se strictly scientific principles and from the standpoint of fairness to every part e country. "But It seems there has been anothbe said. Data secured by the Na-

tional Tariff Commission at large ex-pense has been almost completely ig-nored in late discussions. "As between parties, the much differ-ence, as I see it, is that the Republican Party has stood for a 'protective tariff and the Democratic Party for a 'tar.ff for revenue."
