New England Contributes Ways of Preparing Fish, While From States Near Mexico Comes Chili

By MRS. M. A. WILSON Copyright, 1922, by Mrs. M. A. Wilson. All rights reserved.

THIS corner has featured the kitchen of many nations, and now the time is at hand to feature the Kitchen of all Kitchens, the Kitchen in the United States of America. The truly American kitchen is really worth while. It leads all other kitchens in cleanliness and modern equipment, and is really a place of beauty.

The American housewife has simplified and modernized her recipes and manner of cooking, and it is possible for the new housewife to follow the recipe carefully and turn out dishes that will vie with those of a high-priced chef. In fact, I may say that she can surpass him on many occasions.

Dishes That Are Distinctly American New England Chowder

The New England housewife usually uses the heads of fresh cod for this chowder, but any inexpensive fresh fish may be used. Wash one and one-half pounds of fresh fish, cut in two-inch pieces, removing the skin and bones, and place in kettle. Then add:

- One quart water.
One cup of chopped onions.
One-half cup of carrots cut in dice.
One faggot of soup herbs.
Cover closely and bring to boil. Cook thirty minutes and add:
One quart of milk.
One cup of flour dissolved in the milk.
Two teaspoons of salt.
One teaspoon of pepper.
One-half teaspoon of thyme.
One cup of canned or fresh-cooked peas.

Deep Sea Pie

This dish is made from the salt fish for which the New Englanders are justly famous. Place in bowl one pound of boneless salt cod and cover with cold water. Stand aside to freshen for two hours. Now place the fish in piece of cheesecloth, plunge into boiling water and cook for twenty minutes.

Lift and drain. When cold, flake in pieces with fork. Now rub a baking dish liberally with butter and place in bottom a layer of diced cooked potatoes, now a layer of thinly sliced onions, then the prepared fish. Place like fish of thinly sliced onions over the fish and top layer of diced cooked potatoes. Pour over two and one-half cups of thick cream sauce, and mix with one-half-cup-thick layer of coarse bread crumbs and use one-fourth cup of grated cheese over this. Bake in moderate oven for forty minutes. Before leaving the New England community I would like to give you a prune pie recipe that is more than three hundred years old.

In those days fruit was scarce. Wild berries and a few small or beach plums were the only American fruits. The prunes came from the East India merchantmen, who put in to our shores for either water or protection.

Ye Olde Tyme Prune Pie

Soak ye prunes overnight in warm water, and washin' well. Just enough water to cover the prunes. In ye morn take the crock in which the prunes rested in the night and place in ye oven. Cook the forenoon slowly, watchin' that they do not dry off. (Place prunes on the simmering burner and simmer slowly for one hour.) Take ye prunes when cold and stone to remove seeds. Line a deep pie-plate with good short pastry and place in a thick layer of the prunes. Place in small bowl:

- Three-quarter cup of syrup.
One teaspoon of cinnamon.
One-half teaspoon of allspice.
One-half teaspoon of mace.
One cup of coarse bread crumbs.
One-quarter cup of melted butter.
Mix well and spread on the prunes. Now cover with top crust of ye pastry and bake in slow oven for forty minutes.

Try this pie; it is delicious when served with a tablespoon of whipped cream, or Caledonian cream may be used in place of the whipped cream.

Chili

For this dish you may use either the dried navy or marrowfat bean, the red kidney bean, the pinto bean, or the black-eyed pea. The bean used in the long ago was the Spanish pinto bean, a bean similar to our red kidney bean. Wash a cup of the dried beans and soak overnight in warm water. In the morning cover with cold water and cook until tender, then drain. Mince red green peppers fine and add one cup chopped fine. Place one-quarter of shortening in the skillet and add green peppers, the onion and three-quarters of a pound of finely chopped beef. Now add the fat to the containing the ans. Place tablespoons of fat in the skillet. Stir deep mahog.

Bring to boil and add:

- Two teaspoons of salt.
One teaspoon of chili.
And pour over the meat and beans, simmer slowly for one hour and then serve.

Things You'll Love to Make

Kiddy's Purse

Here is a dear KIDDY'S PURSE that will surely delight the little one. Cut a piece of black oilcloth or patent leather ten inches long and four inches wide. Fold it through the middle crosswise. Along the cross make seven slits one-half inch apart and each one-half inch wide. Cut a piece of the material to fit each end of the large piece, leaving a space of two inches between the pieces, as shown by the shaded part in the sketch. Cut each end into a point. Stitch the edges together by machine or, to make it prettier, overhand the edges with colored worsted. Stitch or applique the basket of flowers on one or both sides. Run a silk cord or strip of the oilcloth through the slits in form the handle. A few painted wooden beads strung on the handle will make this KIDDY'S PURSE even more attractive. FLORA.
