A Whole Block, in the Very Business Heart of a Great City, Is Yours to Enter and Enjoy, for Rest, Amusement or Profit

Abraham Lincoln's Biographers Tell Us

that he hated cruelty to animals—horses, dogs, cats and all other dumb creatures, and spoke out boldly against such treatment. It was published in the newspapers when Colonel Roosevelt made his trip to Africa that nothing would be shot except for food or that of a noxious kind. There would be no wanton destruction whatever.

Thoughtful kindness to all the lower animals is a powerful teacher to the children growing up, who observe everything.

President Lincoln, one morning, riding in from the Soldiers' Home to the White House, stopped his buggy in the road and got out to pick up a bird, with a broken wing, to save its life.
