STYLE M (5 feet 7 in.) \$1375 A Glorious Little Grand

Steinway is the piano standard. Each Steinway style is the perfection of pianos in that size. Style M is the smallest real grand piano ever produced. It is the only small grand that is really grand in quality of tone, beauty of tone, depth and volume of tone, and in the delicacy of touch that characterizes the larger Steinways, which are the choice of musical people everywhere and the reliance of the greatest artists in public recitals. Style M is small enough for the usual spaces of the modern home; in every detail of construction and finish it is a faithful reproduction of Steinways costing twice as much. Time payments.
