FLAG DAY

THE flag of the United States is the oldest flag in the world. The colors of all other nations have changed in one way or another with the shifts and changes of national fortune or the drift of the spirit of national adventure.

We can best serve the cause represented by the flag of the United States by remembering always that such dangers as threaten countries like ours come not from the outside but from within. Tyranny and treason are forever taking on new forms and appearing in new disguises.

CRIME NOT A PRIVATE AFFAIR

RESTITUTION of stolen money does not exempt the thief from prosecution. It may lessen the penalty through the mercy of the Court, but that is all.

NO TROLLEY FREIGHT CARS

WHATSOEVER may be suitable in smaller communities, the crowded streets of a large city ought not to be made more crowded by the use of the street-car lines for freight cars.

AN OLD STORY REPEATED

RAILROADS ought to be compelled to do what railroads do in other civilized countries. They should be compelled to put guards and gates at every grade crossing.

HARD TIMES FOR UNIONS

LABOR unions as well as other business enterprises are entering periods of depression. This is indicated by reports of the falling off in membership of the American Federation of Labor made at the annual convention in Cincinnati this week.

OVERDONE VOLSTEADISM

AT SIXTEENTH and Market streets the other evening a policeman stopped a citizen, who happened to be a Negro, and ordered him to open a traveling bag which he was carrying to prove that he didn't

delegates attending the convention. The radical group is there, but without its old leaders, and Mr. Gompers will attempt to see it in restraint as he has done successfully for many years past.

STIMULATING THE MERCHANT FLEET IS A NATIONAL DUTY

Mr. Harding's Ship Subsidy Bill is a Wholly Unsuitable Cue for the Partisan Opposition Now Brewing

THE habit of partisan thinking, so strong in the conduct of American legislative affairs, has long been richly productive of paradoxes. In few of the provinces of congressional action have such inconsistencies been more persistently piquant than with respect to the vastly important topic of stimulation of the merchant marine.

ENDING THE CONSPIRACY

THE Democratic State Committee has done what the Republican State Committee ought to have done. That is, it has elected as chairman the man suggested to it by the nominee for the governorship.

NANCY KEEPS IT UP

IN THE future there may be lady ambassadors accredited formally by various countries to foreign capitals. Lady Nancy Astor since she returned to England, has been doing manfully to prove that the feminine temperament is fitted to the finer works of diplomacy.

THE ORIENTAL VIEWPOINT

AMERICANS are trained by history and tradition to believe that changes of National Administration are capable of upsetting foreign as well as domestic policies of a Government.

Violated a City Ordinance

The arrest is momentarily expected in Westchester, N. Y., of a lady puma accused of spitting at a policeman. The big cat, accompanied by her cubs, is believed to have strayed from a circus.

AS ONE WOMAN SEES IT

Two Good Newspapermen, Each a Power in His Way and a Generation Apart, One Having a Business and the Other a Laboratory

By SARAH D. LOWRIE
I WAS discussing two men whom I had met last winter who are notable in the newspaper world. Mr. Harry Chandler, of the Los Angeles Times, and Mr. James Thompson, of the New Orleans Item. The man I was talking to over with himself a well-known journalist here in the East. And after I had summed them up in my way he turned on me as quick as a flash with this question:

have whisky in his possession. The bag was opened while a crowd looked on. There was no contraband in it.

It would require only about ten agents of the sort enumerated by Mr. Sautter to clear all motor tourist traffic of the Jersey roads within a single summer.

NOW MY IDEA IS THIS!

Daily Talks With Thinking Philadelphians on Subjects They Know Best

DR. WILMER KRUSEN On the Duties of Citizenship

THE residents of a city can have just the kind of government they desire and just the measure of good government and obedience to the law which they wish, says Dr. Wilmer Krusen, former Director of Public Health and now Chairman of the Chamber of Commerce.

Must Obey City Ordinances

It is well within the power of the people themselves to have the best municipal government. But this will not be done unless the people as a whole are obedient to the laws of the city ordinances.

A Municipal Conscience Needed

But it will not be until every citizen has a conscience which reaches to the health of every citizen himself. It is not necessary to dwell upon the dangers of insanitary conditions in any city—they are only too apparent to every one.

What Do You Know?

- 1. Who are the Walloons?
2. Name a country in the World War the Government of which declared war only against Austria.
