How You Can Make Hairs Quickly Disappear

(Helps to Beauty)

Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delatone. To remove hair from arms, neck or face make a stiff paste with a little powdered delatone and water. Apply to hairy surface and after about two minutes rub off, wash the skin and it will be left free from hair or blemish. To avoid disappointment be quite certain you get real delatone and mix from as wanted.
