

Wanamaker & Brown

1270 New Worsted Suits go on Sale at Oak Hall Tomorrow Morning at 8.30

\$ 25

Based on today's market
\$25 is about one-half their actual worth!

The whole East Section of our Third Floor is cleared for action. All the suits contained in this special purchase have passed the examination of our tailors and are ready for your selection just as you step off the elevator.

ONE of the fastest growing and largest makers of men's good clothing in the country, a day or two ago, offered us choice of his entire stock of fine worsted suits at a price so very attractive that we took in every one of the best suits he had on hand, rejecting a few styles that were loud in pattern which we knew our customers would not approve of.

TO be exact, there were 1270 new suits in the assortment, all worsteds of the best *American* make cloths that 18 months ago sold for \$6.50 to \$7.50 per yard in the bolt, bought direct from the mills that made them.

With wool advancing and cloths costing 50c to 90c more per yard than they did 60 days ago, you may form an idea of the wonderful opportunity we are placing before you when we announce that—

You May Have Your Choice of These Well-Tailored Finest Worsted Suits for \$25

Suits of equal quality have not been sold in years at a price so favorable. In fact, during the era of high prices, these same fabrics equally well tailored, sold for \$65 to \$75 the suit. *Based on today's market, \$25 is about one-half their actual worth.* Because of over-statement and much exaggeration in clothing advertising,

many buyers have formed the wrong impression of all advertisements and it is well for you to remember that Wanamaker & Brown have been doing business successfully at the corner of 6th and Market Streets for 61 years, and our customers know by experience that when we call them in for a bargain, it is a *real bargain!*

We stand squarely back of this manufacturer's suits. Our tailors have tested the sewing, we know the worth of the fabrics; the linings are durable mohair of fast dyes.

The price, \$25, is such a low figure that we advise your coming directly to Oak Hall to lay in a supply of the best worsted suits you have seen in many years.

Ask any jobber of woolens or any first-class tailoring establishment and learn his opinion of Louis Walther worsteds (Philadelphia made), Pequea worsteds (Philadelphia made), Princeton worsteds (made in Trenton), Greenwich worsteds or French River worsteds.

These are the quality of worsteds of which these wonderful suits are made.

There are suits for conservative men, stylish suits for young men, French back finest grade worsted suits for stout men. Fine twilled serges for young men in new sport models, with Norfolk coats and in the assortment are suits of the proper weight, not only for Summer wear, but for wear all the year around.
