KILLED SALE, WOMAN SAYS

New York, June 29 .- Upon the artisie habits of Leonardo da Vinci depends the result of the action filed last January by Mine. Andree Hahn, French wife of an Anerican airman. If it was Da Vinci's wont to stand off from his still wet canvases and, with his thumbs and little fingers, smudge this and flatten that, Mme, Hahn thinks that Sir Joseph Duveen will have to pay her \$500,000, provided, of course, that

dealers are hustling hither and you son Railroad at Poyntelle. Bertilion system of identification by overflowed and flooded cellars and railinger prints is with the party. These road yards in many parts of Carboncunning investigators are working in the interests of Stanchfield & Levy, counsel for Sir Joseph.

Every now and then they cross the trail of Hyacinthe Ringrose and Mme, ing Hain who are suitably supported by  $V_{\rm tot}^{\rm YZ}$ arying numbers. Mr. Ringrose. Mine Habin's lawyer, and Madame erself are closely inspecting the same in Vinets. When the trial is called here will be arrayed against one an-ther two platoons of artists and art

The chances are that nothing quite like it will have been seen since the entire Metropolitan Opera Company appeared before a large Celtic magistrate in Philadelphia to bear witness of the gentle character of a pocket edition prima donna who was accused by a 200-pound music critic of hurling him own a flight of steps.

Mme. Hahn, whose husband is H. J. Halin, formerly a captain in the United tahn, formerly a captain in the United States Army air service, fetched what she insists is da Vinci's La Belle Feronnière to America, in June, 1929. It was scheduled to be taken out to Kansas City and there hung in the local art institute. Kansas City, Mme, Hahn says, was prepared to give her \$500,000

But before it left New York it was displayed in a Fifth avenue salon for the benefit of a number of interested dealers. Sir Joseph Duveen happened be in New York and it is said that e dropped in to survey the masterpiece. Having looked it over and being familiar with the La Belle Feronniere that hangs n the Louvre. Naturally that discouraged Kansas
City. At all events Mme, Hahn's painting remains in her possession. She says
that the Louvre's painting of Lucrezia
Crivelli (La Belle Feronniere) is but opy of hers, the original. Sir Jo-h insists that not only does Mme. Habn hold a spurious copy of this early da Vinci, but that it was executed by a most inferior artist—a painter who couldn't even copy advoitly. Therefore, New York is due to have a trial that will create at least one precedent. It will be the first time that the authenticity of an old master will who died 334 years before Alphonse

# Attention, Ford Owners!

Ford parts, like almost everything else worth while, are counterfeited. The manufacturers of these imitation parts are obviously not as interested as we are in maintaining the high standard of quality and the complete satisfaction of Ford owners. Imitation parts are manufactured to sell at the highest possible rate of profit and the grades of steel used are consequently not the same high quality, specially heat-treated alloy steels specified in Ford formulas for the manufacture of GENUINE FORD PARTS.

Don't be misled-Insist upon GENUINE FORD PARTS made by the Ford Motor Company. By so doing you will get from 35 to 100 per cent more wear from them, and you will pay the lowest possible cost—the same everywhere.

## Its Dependability Proves Type 61 the Greatest Cadillac

With more than 15,000 of the Type 61 already in use, owners of the car are unanimous in acclaiming it the greatest Cadillac ever produced.

Factory Service on the Type 61 for the first nine months has been less than one-third of that required by any previous new Cadillac in a like period.

The one fact upon which owners seize, and ardently emphasize, and recur to

again and again, is the new Cadillac's amazing dependability, which they insist has never been equalled or approached before, even by the fine Cadillac forerunners.

What bears them out in this verdict, and establishes completely Type 61 preeminence, is the fact that all former production schedules have been exceeded and that numerous cities report the largest Cadillac sales in their history.

# makes good owner's claims

As a result of a friendly discussion a run was recently made from Philadelphia to Pittsburgh and return by a Paige owner in his own car.

The powerful, sturdy Paige 6-66 not only proved every claim the owner made for it, but more-the entire run of 607 miles was made in high gear, in 19 hours and 30 minutes, averaging 31.1 miles per hour. Forty gallons of gasoline were consumed, making an average of 15 miles to the gallon.

Any one familiar with the steep grades and bad roads in the mountain section between Philadelphia and Pittsburgh will appreciate just what this performance means.

Remember, the entire trip was made in high gear.

When we say, that on the road, the Paige 6-66 will outperform any other car, regardless of price, we know that we can take you any place in or around Philadelphia that you may suggest and prove this statement in stronger terms than we could ever express on the printed page.

For outward beauty-riding ease-brute strengthreserve power-flexibility or any other points upon which thoroughbred cars are judged, a Paige 6-66 demonstration will make all your other motoring experiences seem tame.
