The Semi-Annual Sale of Furniture Will Start Monday

Here are a few of the reasons why this Sale should result in the greatest midsummer selling of Furniture in our history.

1-You can choose from greater quantities and varieties than have ever been assembled under this Store's roof at one time.

2-Practically the entire collection is brand new-most of it has been brought into the Store since July first.

3-This Furniture was secured when manufacturers' prices were at the lowest point of the downward swing. (All indications point to higher prices.) Most of this Furniture was secured at concessions from these bedrock

Let your watchword be "compare"-for

4-Our entire regular stock is included at substantial reductions from our already low prices.

5-Great special purchases have been made -and these will be marked one-fourth to one-half less than regular prices.

6-We believe that this season, more people than ever will shop around, and compare the Furniture values in as many Sales as possible, before buying. That is the only way to make every dollar do maximum duty, Compare

comparison insures maximum value!

More news of the Sale will appear in to-morrow evening and Monday morning newspapers. This news will prove profitable reading.
