

\$130,000 FUND FOR CAPE MAY HARBOR

Government Already Spending \$80,000 on Cold Spring Inlet. Bacharach After More

PROGRESSIVE LEAGUE BUSY

Cape May, N. J., July 22.—Old Cape May is continuing its forward march with the active aid of three powerful factors, the Federal Government, the State of New Jersey and the Progressive League.

There is great interest among the permanent residents, the many summer visitors and among yachtsmen and shippers in the ambitious program for Cape May's "port of entry," Cold Spring Inlet.

The Government is spending \$80,000 in keeping this harbor in up-to-the-minute shape, and in replacing the 800 foot jetties. And Congressman Bacharach, staunch friend of Cape May, has a bill in Congress providing for an appropriation of \$50,000 more.

Cold Spring Inlet's 500 rippling acres of inland safety are, and have been for a long while, a tranquil haven for the many pleasure craft of the summer visitors, but now, more and more, they are becoming a port of call and a place of refuge for commercial shipping.

Steamships are putting in there to take on coal, gasoline and fuel oil, and Cape May is now a regular stop for a big boat which plies between Philadelphia and New York with passengers and freight, making two trips weekly.

Building New Roads

Even the Down Easters have discovered the advantages of Cold Spring Inlet, for their fishing fleet has acquired the habit of running into Cape May from a hundred miles at sea, so a ship from Cape May.

The State has helped Cape May to keep its banner high by running fine highways deep into Cape May County, where they connect with hard-surfaced roads now being laid by Cape May itself. The resort's paving program is being carried out to this end.
