Celebration for St. Anne

A three-day celebration in honor of St. Anne was begun last night at St. Francis de Sales Roman Catholic Church, Forty-seventh street and Springfield avenue. The Rev. Bishop Crane is rector of the church.

Dr. Patten's domestic theories

extended to reform our modern diet. He held that Americans were living in the tradition of the "New England dinner," and ate far too much meat and other heavy food. He advocated a diet of cereals and sugar, and declared a proper diet would cut down the cost of living 10 per cent and increase energy and healthfulness 50 per cent.

Dr. Patten always had the courage

of his convictions, no matter how much wrath they evoked. At one time, in 1913, he started a public campaign in which he said that the trustees had taken up the question of Dr. Patten's retirement at the age of sixty-five years at his own request, and he would be kept on in spite of age. The question was discussed and decided. Dr. Patten always had the courage of his convictions, no matter how much wrath they evoked.
