After-Dinner Tricks

Lay four bits of paper on the back of your right hand, and state that with one puff you can blow away one, two or three pieces of paper, causing the rest to remain on the hand. Furthermore the audience can select the pieces they wish to have remain. Of course such a feat seems impossible, and in fact it is, unless you resort to the following tricky expedient. Simply place a finger on the left hand on each piece of paper they choose to remain. Then blow from the back of the right hand, but the chosen ones will remain.
