Linart, Carman, Miquel, Maddona and Corry Stand in Order for 1922 Laurele

ALL ENTER IN SAME RACE

SOTOR-PACE stars of five different countries are grouped together at to top of the points-scored list for 1922 season, now in full sway. Iting the pace is Victor Linart, Beliat tileholder and world's champion; at the in order come Clarence Carin, America; Jules Miquel, of ane; Vincenzo Maddona, Italy, and

How Motor-Paced Stars Stand in Points Score

Frank Corry, Australia.

A total of 96 points to date gives
Linart the leadership, but he is only
four points ahead of Carman, who has
a margin of 13 points on Miquel. But
one point separates the Frenchman
from Maddona, who is six points in
from of Corry.

Those five riders are the best of the
motor-paced talent in America today,

his riding in the last two weeks, since recovering from the fracture to his collarbone. "I have been training faithfully," writes Vince to Chapman, "for the last week, especially for distance races, and I am glad to be entered in the same event with Carman, I want to lick him, and lick him bad. I won't bother about the other riders in the derby, but try to outdistance Carman, and I feel sure I will."

Antianecci. an Italian motor-pacer

Antianecci, an Italian motor-pacer from Providence, R. I., will make his Philadelphia debut on Thursday. He has been riding in sensational form around the circuit, and it was through the request of Maddona that Antianecci will compete here this week. The other pacers are to be "Daredevil Jimmy" Hunter, Johnny Schlee, Eddie Root and Otto Miller, of Brooklyn.

MUELLER CONVECTORS

"For years we have been looking for a better heating system to offer home owners in this city-

a heating system that will do as much or more than the manufacturer claims for it—a heating

system that will PROVIDE EVERY KNOWN HEATING COMFORT WITH LEAST TROUBLE

"We have found this system in the MUELLER CONVECTOR. Selling at a price well within the

means of every home-owner, it has advantages not provided by other systems costing many times

as much. It is ideally suited to the eighteen-room mansion, or the five-room bungalow. Wher-

ever it is installed, it is best for the COMFORT, the HEALTH and the POCKET-BOOKS of its

'Lefty" Vann Plays First With-

lead two games to one when they halted fly. the uptowners at Haller Park last night. 5 to 1.

The same teams clash again tonight at Richmond and Orthodox streets, and High whitman expects to reverse the score with Ray Kepner on the hill.

Chickie Passon opposed Gene Costello, and the diminituve hurler yielded but four hits. The game was a record-breaker, and several local marks were established.

"Lefty" Vann, the Sphas first sacker, was not credited with a single

putout, while Rube Chambers, in right, had ten. Rube was also credited with a double play unassisted. In the eighth he got Leslie's fly almost in back of first base and he caught Billy Whitman, the Bridesburg manager, before he could get back.

The hitting of "Label" Goldblatt, who had three bingles, was one of the features of the game. Bridesburg was first to score, getting their only run in the second. Zibell hit safely, stole second and scored on Fleck's single.

out Single Putout—"Rube"

Chambers Stars

WILL CLASH AGAIN TONIGHT

The South Philly Hebrews are the only local team that has the edge on Bridesburg in any series played this season. The downtowners took the lead two games to one when they halted second and scored on Fleck's single. The Sphas counted first in the third. Kravitz walked. Passon sacrificed and crossed the plate on Chambers' single. They negotiated two in the sixth. Gallagher and Barol singled and scored on Vann's double. The final runs of the winners were made in the seventh. Passon singled and was forced at second by Chambers. Mouradian walked. Landberg was safe on Buskey's error. Chambers scored on the squeeze play when Goldblatt bunted safely and Mouradian tallied on Barol's sacrifice fig.

Final Standing of Judalo League Final standing of the Judale League
Final standing of the Judale Union Baseball League, finished last Bunday, gives
Standard, winner for two years in a row
and having two legs on the Manny Weil
Trophy, ten victories and two defeats, for
a percentage of .833. Philadelphia and
Diaraeli are tied for the runner-up position, each with .500. The standing follows:

W. L. P.C.

Standard 10 2 .833 Diaraeli. 5 5 .590
Phila... 6 6 .500 Morais... 1 9 .100
The only game won by Morais during the season was a victory over the champions, 18 to 0.

CONVECTOR BURNS LESS THAN A TON PER ROOM PER YEAR

AND EXPENSE.

owners.

The Cadillac of -Heating Systems-

The Mueller Convector does far more than heat your home. It places ventilation ABSO-LUTELY UNDER YOUR CONTROL without cold drafts-it actually cleans the air in your home, giving you a far more healthful "Winter Atmosphere." It CONVEYS warm, moistened air to every room in the house through one duplex register without creating drafts. It is the most simple, certain, satisfactory method of home heating ever devised. IT WOULD BE THE LOGICAL SYSTEM IF IT COST MORE THAN OTHER HEATING TYPES-INSTEAD OF LESS!

"We are staking our reputation as local business men on CONVECTOR PERFORMANCE. It is manufactured and installed under supervision of the most skilled heating engineers in the country. It is backed by a \$3,000,000.00 company with a 65-year-old reputation for excellent heating systems, AND THIS COMPANY FURNISHES A WRITTEN MONEY-BACK GUAR-ANTEE WITH EACH INSTALLATION."

Here are the reasons we recommend the Convector for your home:

- (1) Convector Heating keeps ALL (6) Heats ample supply of water the AIR in your home in slow, constant motion. It ventilates every square foot of every room with warmed, healthfully moistened air. It's splendid health insurance.
- (2) It frees all your rooms of heating apparatus. No wall space occupied by radiators and registers. You can arrange your (10) PRICE? It will cost you less furnishings as you please. Every room is easily cleaned.
- (3) The Convector is easily operated. Requires little, if any attention, throughout the day.
- (4) It heats evenly. The upstairs bedroom is warmed and ventilated just as well as rooms on the first floor.
- (5) It overcomes the old objection to warm air heating by absolutely eliminating all soot, smoke, coal dust and fuel gas.

- for kitchen and bath.
- (7) Burns any fuel-coal, coke, gas, oils, wood, lignite or screenings.
- (8) Fits any basement-even the smallest-and can be installed in less than one day.
- (9) SAVES 1-3 TO 1-2 ON YOUR FUEL BILL.
 - than two good cigars a day for one year. But we're not recommending the Convector because its price is low-WE'RE REC-OMMENDING IT BECAUSE WE FIRMLY BELIEVE IT'S THE BEST HEATING SYS-TEM MADE FOR HOME HEATING.

We can prove every one of these points to your satisfaction-Let us prove them to you-NOW-before you decide on a heating system!

> Yours sincerely, Air Convection Co.
