Only 40 of 300 Families Re- Pittsburgh Coal Producers' Association Makes Inspection Tour and Is main in Village and They Are Leaving Hourly

MEN WORKING MINE

Washington, Pa., Aug. 1.—If the conditions surrounding Montour Mine No. 4, at Hills Station, may be taken as a criterion, the deserted village is developing into a big issue in the fight between the Coal Producers' Association and the Mine Workers' Union.

Today the miners where the coal frequency is a state of their debt for rent.

## The Makers of U.S.Royal Cords Beg to State — This is contrary to the facts.

TOT quite seven years ago the S. Royal Cord Tire was announced to the public. People who saw it remarked on the beauty of the tread design, which

is protected by U.S. Letters Patent. The same design that since then has proved itself the most scientific tread pattern ever put on a pneu-

matic tire. To identify this superlative tire under all conditions-whether running or stationary - Royal Cord makers adopted as a trade mail a circumferential white stripe placed on each side wall.

Today, Royal Cord beauty and identity is so known and distinguished that even a newsboy can spot one whisking around the corner.

And car-owners everywhere look upon a Royal Cord as the measure of all automobile tire values.

According to some tire dealers and manufacturers the public has been having one of its "price spells" and demands cheap tires.

Current prices on United States Passenger Car Tires and Tubes are not subject to Federal Excise Tax, the tax having been included.

Otherwise Royal Cords wouldn't keep gaining and gaining and gaining in sales to quality people. And-you wouldn't see Royal Cords on so many cars of every make in the country. Nor-if Americans were on record for cheaply made and cheaply priced tires - would theyaward the leadership of the tire business to the Royal Cord Tire.
