# MESABI IRON HIGH SPOT ON THE CURB

### Stock Sells Up to 13½ Against Subscription Price of 12.

### Oils Irregular

**New York,** Aug. 8.—The feature of the Curb market today was initial trading in Mesabi Iron stock, which was placed at subscription Friday last, at 12 and was four times oversubscribed. The opening transactions were recorded at 3500 shares at quotations ranging from 13½ to 13. This heavy premium over subscriptions induced some profittaking and resulted in a reaction during the later trading. There was a small amount of business in the Gimbel Brothers shares, the common stock, when issued, selling the first half of the day at 46⅜ to 46 and the preferred at 102.

Motor and tire stocks were in supply at concessions. Stutz Motor ranging from 20½ to 19½. Durant Motor sold down to 3½. Intercontinental Rubber was again heavy, yielding to 4⅛. Peerless Motor, which was under pressure yesterday, showed a firmer tone today, with trading at 54 to 55.

Petroleum stocks were irregular. Ryan Consolidated rose from 6⅝ to 7¼, following the announcement of a sale of a block of 53,000 shares taken by a syndicate at auction, which was transferred to new hands at private terms yesterday. International Petroleum was traded in at 21 to 20.

New England Fuel was one of the strongest features of the petroleum group, buying orders coming into that stock from many sources, but offer selling at the new high of 62 it reacted slightly.

## LONDON STOCK MARKET

### Oils Irregular—Dollar Descriptions Idle and Featureless

**London,** Aug. 8.—Only a small number of brokers attended today's session of the stock exchange, and, as a result, the turnover was small. Oil shares were irregular. Royal Dutch was 35½, Shell Transport and Trading 4¼ and Mexican Eagle 2⅝.

Home rails were strong in the main. Dollar descriptions were idle and featureless. Argentine rails were dull, with little rallying power. Gilt-edged investment issues were well maintained. French loans wavered, and there was a disposition to avoid fresh commitments.

Some industrials were hard. Hudson's Bay was 6 9-16. Rubber shares were inactive. Kaffirs scored fresh gains, with the feeling cheerful.

### Prices Firmer on Paris Bourse

**Paris,** Aug. 8.—Prices were firmer on the Bourse today. Three per cent rentes 59f 25c. Exchange on London 84f 73c. Five per cent loan, 70f. The dollar was quoted at 12f 28c.

## Banks Endorse Credit Insurance

Representative banks in all parts of the country recommend to their patrons this great protective service for safeguarding against bad debt losses. Here's what a Big banker writes us:

"Under the present business conditions, I would consider credit insurance more advantageous than any other time in the history of our country. I candidly think that everyone engaged in extending credits should protect themselves with a policy in your (the American) company."

The Federal Reserve Bulletin for June contains a very interesting and informative article on Credit Insurance. Every Manufacturer and Wholesaler should read it. We have reprinted it in pamphlet form, and will gladly send you a copy free. Write or phone us for it today.

It enumerates the services rendered to clients by Steele Architects, Engineers and Constructors, and gives a complete list of the various departments in the Steele Organization.

Written in brief form, it can be read in two minutes by the busy business man who is confronted with structural problems.

Steele Construction Service is based upon centralized responsibility. All details of design, construction and equipment are placed in the hands of a single organization.

The success of the idea is attested to by hundreds of industrial and commercial leaders in this state and in New Jersey, who have found it advantageous to fix the responsibility for all details of their construction and engineering operations.

A representative of this firm will be very glad to discuss the subject of building with any business man.
