

BRIDGE ARE DYNAMITED

Wholesale Evictions of Miners Refusing to Work Are Resumed at Connellsville

COAL BILL BEFORE SENATE

Assert Huge Shortage in Hard Coal Supply

Washington, Pa., Sept. 2.—A shortage of 30,000,000 tons has been caused in the country's normal supply of anthracite by the tie-up in that industry, according to estimates made by the coal bureau of the Chamber of Commerce of the United States.

Unions. Pa., Sept. 2.—Two dynamite explosions and the resumption of wholesale evictions in the Connellsville coke region today marked the progress of the miners' strike in Fayette county.

Records at the sheriff's office show that the families of the forty strikers were evicted from county houses yesterday. Total evictions this week, it was said, would reach 250, with the grand total since the strike started about 1700.

Washington, Sept. 2.—(By A. P.)—The Administration's anti-profitting coal bill was still before the Senate today. Action on the measure went over when it was taken up yesterday and encountered the vigorous opposition of Democratic leaders who declared it would not accomplish its purpose because the real crux of the coal supply problem, they said, was a lack of railroad motive power.

Gompers Hints at General Strike

Continued from Page One

Mr. Gompers said the word conspiracy as used in the injunction was one of those legalistic terms injected to confuse the situation.

No U. S. Move Against Roads. At a banquet of the injunction is a confession that the strike is to be successful in securing the rights to which the men are entitled.

Referring to the various acts prohibited under the injunction, Mr. Gompers said that he did not wish to appear facetious, but he pointed out that the radio had not been covered in the injunction.

Referring to the various other railway organizations in the Federation of Labor that might be involved in a general strike, Mr. Gompers remarked, "The Government through its Attorney General may have stirred up a hornet's nest rather than placated the men and found a solution to the situation."

Printed and oral propaganda were placed under the ban by the Government and the injunction is directed against all persons connected in an official capacity with the railway employees' department of the American Federation of Labor, the Federated Shop Craft and System Federations.

The life of the temporary injunction extends to September 11, when Judge Wilkerson will hear a motion for a permanent order.

In a statement issued by the Executive Council of the Railway Employees' Department of the American Federation of Labor, strike leaders pledged to aid by their "every power"

Chicago, Sept. 2.—(By A. P.)—The Government acted swiftly upon the heels of its injunction action yesterday in which Attorney General Daugherty obtained a temporary injunction, which, viewed broadly, virtually inhibits the railroad strike.

Notice of the temporary enjoining order and the pending hearing September 11 on a permanent order were served last night on John Scott, secretary-treasurer of the Railway Employees' Department of the American Federation of Labor.

E. M. Jewell, head of the Railway Employees' Department and acknowledged leader of the strike, could not be found by Deputy United States marshals and the belief prevailed today in the Federal building that Mr. Jewell was seeking to evade service. Five hundred notices of the temporary order and impending hearing were printed

last night. There are to be served on more than 250 individuals, officers and aids of leaders of the six shophmen's unions whose 300,000 members went on strike July 1, the Railway Employees' Department, and 120 system federations throughout the country.

Some 5500 deputy United States marshals throughout the country are being recalled to duty in connection with the strike. Fifty additional deputy marshals were sworn in at Chicago to aid in making service.

Blackburn Easterline, Assistant Solicitor General of the United States, remained in Chicago today, conferring with local Federal officials in connection with enforcement of the order. While United States Marshal Levy's office was charged with the subpoenaing of union officials, named in the Government's suit, the entire Department of Justice was in active operation.

99 More Caught in War on Drugs

Washington, Sept. 2.—Widespread reports that Ambassador Herrick, now on leave in this country, might not return to his post in Paris were denied yesterday at the White House.

POMPEIAN OLIVE OIL Sold Everywhere. Advertisement for olive oil with a small illustration of a person.

The Wanamaker Store Is Closed This Saturday Holiday

It Is Not Our Intention Ever to Deprive the People of the opportunity to use this Store on a business day.

We thought over very carefully the matter of closing this Saturday before we came to a decision to close, whether other stores closed or not.

Many of our people who have been away on their vacation holidays would have had to come home on Thursday or Friday in order to be at work on Saturday if the Store was open.

By giving them the first Saturday in September, they were enabled to stay away over Sunday and also over Monday, on which day, in deference to the people who always keep Labor Day, it is our custom to be closed up.

John Wanamaker. Signed advertisement for the store closure.

"I knew him when he was a boy"

What one is there of us that has not felt the glow of satisfaction over the outstanding success of a life-long friend! Often a surprise—seemingly "all of a sudden." Yet neither surprising nor sudden, when you stop to think back over each step of his progress.

The makers of U. S. Tires were first to conceive, make and announce a complete line of tires. (This gave to the dealer and car-owner something that never existed before—a tire for every need of price and use under one standard of quality.)

The makers of U. S. Tires were first to have the courage to tell the public about the good and bad in tire-retailing. (You remember the phrase "Go to a legitimate dealer and get a legitimate tire.") People can no longer take the indifferent stand that "discounts," "inside terms" and "dickers" are a necessary evil in the tire business.)

These instances alone at least indicate the intent back of Royal Cords—the will to win by the quality route in a price market.

Now that so many car-owners have given their verdict for quality tires in general, and U. S. Tires in particular—a number of dealers and car-owners whose vision has been clouded by "discounts," "sales," "terms" and what not, are beginning to remember that they "knew him when he was a boy."
