Decidedly not Kindly and amiable and broadminded women are to be found everywhere, who know that no man can be held by galling chains. Wives who are tactful and wisest are wives who mother their husbands, and understand them, and are gracious when they show admiration for other women.

JEALOUSY is a strange and poison-tous weed. Or, to vary the figure, it is a two-edged sword, which cuts the wielder of it. It causes the jealous one untold agony. No torture can be compared to it.

Study or Business

Dear Cynthia — Reading your daily column, I would be very much pleased to have your advice in the following case: I am a young man twenty years of age, and came to this country sixteen months age. On my way over I fell in love with a young girl of seventeen. For all the past time she was in New York, I in Philadelphia. I attended, all the time, night school and have a great desire to study, otherwise I don't feel I will make a success in life. I am working new but business does not attract me as much as study. My girl friend came to Philadelphia in the last five weeks. She wishes me either to stop study, as she is young and does not want to sacrifice her youth, or else she can't continue her friendship with me. If I shall stop my study, in other words, break my great desire. I am afraid, if some hard times come in my future, I will convolant that it is her fault don't you think so? the Long, Tight Sleeve will complain that it is her fault, don't As you are a foreigner, you are wise in studying as much as possible, as it will help you in business when you are older. You must engage in business if you expect to support a wife. The young girl is thoughtless to demand that you give up your studies. You should both wait a year or so, till you have finished at night school.

Says She's Idealist's Ideal

Dear Cynthia—Please may I say a few lines to "Idealist". Thank you "idealist." Thank you idealist. I just read your letter and had to laugh, for I answer pretty well to your ideal girl. I just thought I'd write and tell you. I have very dark hair and eyes and a decidedly olive skin. My hair, alos, is bobbed, but that can't be helped, for I am a professional dancer and I couldn't possibly stand long hair for the kind of work I do. I am about five feet five (not quite up to your standard), and have been told I carry myself well. That I leave to other people to decide. I don't smoke, and I do every kind of outdors sport you can mention, from swimming
