One of Organizers of Eastern Basketball League Decides to Quit Game

FOUR TEAMS ARE READY

The Eastern Basketball League held a meeting to get plans under way for the 1922-23 season last night, but the outlook for the veteran cage organiza-

tion is not so good.

Another team has dropped out and the fans were rudely shocked this morn-ing to learn that Reading had decided

to forfelt its franchise. Reading is one of the organizers of the league. Only four clubs have signified their invention of facing the barrier. They are Trenton, Camden, Coatesville and Wilkes-Barre. The last is said to be rather lukewarm to the proposal and is not really anxious to start.

The other managers would be more than pleased with a new team to take the Barons' place.

Many of the players who formerly played in the Eastern League will be seen in the Metropolitan circuit. The magnates then issued an order which prohibits any player in the Eastern League appearing in any games in which Metropolitan League teams appear.

The outlook at this time is rather dubious as to the personnel of the league. A couple of teams in this city should be paying propositions, but as yet no one wants to get into the game from all accounts.
