IF YOU ONLY KNEW

F you only knew how much your body needs Purock water. If you only knew the amount of worn-out tissue and other waste matter that must be carried away each day. If you only knew-as the physician knows-how Purock water cleanses your body of these impurities—how it refreshes, invigorates and makes you, better fitted for work or play.

If you knew these things you would drink lots more Purock water than you do.

Purock is the finest water you can drink because it is scientifically distilled. It comes to you ready to absorb and remove the impurities. It is charged with oxygen that refreshes and invigorates.

Let your drinking water always be Purock. It is more than a thirst quencher and is inexpensive.

Coal Shipments Large

Bituminous coal shipments through the canal were large during the first half of this year, the Mayor asserted. More than 62,500 tons arrived in Philadelphia from Southern ports, this activity being explainable by coal-strike conditions. Lumber shipments from the South also increased enormously. Sugar shipments showed a heavy increase.
