ducks" of the railroad division. It has been recognized for some time that some of the smaller systems were experiencing a great deal of trouble in keeping their heads above water, but the impression appeared to be growing most of these companies had passed most of these companies had passed through the hardest test and were in a fair way of recuperating. Then, again, there had been some little talk of the itterger systems taking over these weak there had been some fittle talk of the stronger systems taking over these weak sisters. In the early part of the year the air was full of amalgamation and the air was tull of antigamation and consolidation stories. The coal strike and the shopmen's walkout undoubtedly umed most of the time and attention of railroad managers to keep their own affairs in shape, rather than giving thought to the absorption of the smaller

board

## Dated September 1, 1922

## Due September 1, 2022

Not redeemable prior to September 1, 1947. On and after that date, and up to and including February 28, 2017, redeemable as a whole or in part at the option of the Company at any time upon 30 days' published notice, at 110 and accrued interest; thereafter at par and accrued interest.

The Company will pay interest without deduction of the normal Federal Income Tax payable at the source, up to 2%, and will refund on timely application the State Tax in Pennsylvania to the extent of the present rate of four mills.

The following is summarized from a letter signed by Mr. A. S. Grenier, Vice President of the Company:

Purpose	To provide funds for the retirement of all the General Mortgage 8% Bonds
of Image	Ten-Year 5% Notes and all floating indebtedness of the Company.

Business Nebraska Power Company and its predecessors have conducted an electric light and power business in Omaha, Neb., and vicinity for 38 years. Through its subsidiary, the Citizens Gas and Electric Company of Council Bluffs, commercial and municipal electric light and gas service is supplied to Council Bluffs, Iowa.

Lamingu For the year ended July 31, 1922, earnings of Nebraska Power Company applicable to interest charges were 2.17 times the annual interest requirements on the total funded debt of the Company, including this issue of Gold Debenture Bonds.

These bonds will be the direct obligations of the Company, issued under an Prostrions Agreement to be dated September 1, 1922. This Agreement will provide that d Inge no additional Gold Debenture Bonds may be issued unless the net income applicable to interest charges as defined in the Agreement shall have been not less than twice all annual interest charges as defined in the agreement, including interest on the gold debenture bonds then to be issued. Upon liquidation or dissolution of the Company these Series A Bonds may become due and payable during the first 95 years at 110% and thereafter at their principal amount, as provided in the Agreement.

These bonds will be followed by \$4,500,000 par value 7% Preferred Stocks Equitys and \$5,000,000 par value Common Stock. Dividends on the Preferred Stock of the Company and its predecessors have been paid without interruption for the past 19 years.

The operation of the Company's properties is under the supervision of the Supervisions Electric Bond and Share Company, assuring efficiency in operation and vigorous development of new business.

According to a decision of the United States Supreme Court, the Company Franchisees possesses a franchise right, unlimited in time, to distribute electricity for power, lighting and heating purposes. In the opinion of counsel this franchise covers territory from which the Company derives the major portion of its revenue.

All legal matters in connection with the issue of these Gold Debenture Bonds will be passed upon by Messrs. Simpson. Thacher & Bartlett of New York, for the Company, and Messrs. Murray, Prentice and Aldrich of New York, for the Bankers
