

ARREST ANGERS ALICE THORNTON

Girl Held for Murder of Jack Bergen Says She Was Taken by Trick

REITERATES HER INNOCENCE

New York, Sept. 18.—"Discouraged? Worried? Not at all. Why should I be? I am innocent of any crime or any thought of any crime. But I am angry over the fact of my arrest and the trick by which it was accomplished."

So declared Alice Thornton, under arrest at Hackensack, the county seat of Bergen County, N. J., under an indictment for murder in the first degree because of her participation in the events which led up to the fatal shooting of Jack Bergen, stunt movie actor, by George D. Cline, a location manager for films, in Cline's home at Edgewater, N. J., the night of August 25 last.

Alice Thornton is the girl who told Cline of the association between Bergen and Mrs. Cline, which was given by Cline in his second story of the crime as the motive which prompted him to force Bergen to a duel in a bedroom.

Appearance Unchanged
Alice Thornton has not changed much in appearance as a result of her imprisonment. Her bobbed hair, curly at the time of the shooting, has straightened out, detracting somewhat from her attractiveness. She also has left off the earrings and neck beads she wore when at liberty. In her cell yesterday she was dressed in a simple black crepe de chine dress and wore no ornaments.

Miss Thornton's protest against her arrest is based on her claim that she had nothing whatever to do with the shooting, had not the slightest thought when she went to the Cline home on the fatal night that there would be any serious trouble, had nothing whatever to do with inducing Bergen to go to Edgewater that night and after the crime had concealed no information about it.

BISHOP WHITEHEAD DIES

Pittsburgh Divine Succumbs to Heart Attack at Niagara
Pittsburgh, Sept. 18.—(By A. P.)—The Rt. Rev. Cortlandt Whitehead, S. T. D., LL. D., bishop of the Diocese of Pittsburgh of the Protestant Episcopal Church, died suddenly at Niagara Falls, N. Y., early today, according to word received here by friends. The bishop spent his vacation in Rhode Island and stopped at the Falls en route to his home here. He suffered a heart attack last Friday, but the illness was not considered serious at that time. A second attack this morning ended in death.

SENATE ACTS SOON ON TARIFF BILL

Ruling, However, May Send Measure Back to Conference Committee

VALUATION POINT AT ISSUE

By Associated Press
Washington, Sept. 18.—Whether the Tariff Bill would again be thrown into conference depended on the ruling to be made today on the point of order to which the conference report on the measure was subjected by Senator Simmons, North Carolina, Democratic leader in the tariff fight, when it was called up in the Senate Saturday. Should the point of order not be sustained, it was expected that final legislative action on the bill would come late today or tomorrow.

tariff conferees had exceeded their authority by proposing authority for the President to declare American valuation as the basis of ad valorem duty assessment on any item in the bill. The Senate by direct action had limited such authority to the specific items in the two paragraphs dealing with duties on coal tar dyes and other products.

Upon the course of the Tariff Bill chiefly depended plans of congressional leaders for a sine die adjournment of Congress by next Saturday, or sooner, if possible. Final disposition of the Soldiers' Bonus Bill was the other principal feature on the clean-up program, with immediate efforts in prospect to re-pass the bill in the event of its veto.

Corns Go Blue-jay to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it) and in extra thin plasters. The action is the same.

"Fresher by a day" and what it means to you

YOUR HEALTH and that of your children depends greatly upon pure FRESH MILK. That is an accepted fact. Milk—the "cup of life"—is most essential to a healthy nation. And the purer and fresher the milk that you drink—the more nourishing and wholesome it is bound to be.

"Fresher by a day" is the story of an achievement which is daily bringing to thousands of Philadelphia families milk that is actually fresher by a day. Thirty or more years ago, dairy farms existed within the city limits. But a city must expand and farms must give way to the rush of population. The result is that today most dairies are forced to get their milk from farms a hundred and even several hundred miles away. To this rule, the Scott-Powell Dairies are the exception.

A Service That Began Years Ago

More than twenty years ago, Messrs. Scott and Powell, founders of Scott-Powell Dairies, foresaw the inevitable wiping out of local farms. They arranged to get their milk supply from the nearby counties of Lancaster, Delaware and Chester—the farthest point less than 60 miles away.

There, every morning at 5 o'clock, is milking time on the 1500 farms, which send their milk to Scott-Powell Dairies. After milking, the fresh clean milk is delivered to the Scott-Powell receiving centers, located advantageously in the farm districts. A few hours later sees the arrival of our gigantic glass-lined wonder trucks—each capable of holding 6,000 quarts. Quickly they are filled. Back they speed along Lincoln Highway—their precious contents always kept at a temperature of 38 degrees.

From Country to City in Four Hours

Four hours later the milk is delivered to our city dairies. The same afternoon it is pasteurized, cooled and sealed in sterilized bottles. Next

morning, bright and early, Scott-Powell "A" Milk is at the homes of thousands of families.

From milking time to drinking time is 24 hours. And the price is the same as for ordinary "A" milk! That's the unequalled Scott-Powell achievement which has won the praise of authorities and challenged the attention of people who want the freshest milk obtainable.

You Drink Tomorrow's Milk—Today!

We have shown you how Scott-Powell "A" Milk is received in our city dairies in the afternoon instead of late at night, as long railroad hauls would necessitate. Dairies which receive milk at night cannot pasteurize it before next morning—too late for that day's delivery. The result is that their customers get that same milk the following day.

Decide for yourself! Do you want just ordinary "A" milk or, at no higher cost, do you want Scott-Powell "A" Milk that is sweeter, purer and more wholesome because it is always Fresher by a Day? You can telephone your order to Preston 1920—or stop our driver as he passes your door.

Always Fresher by a Day SCOTT-POWELL "A" MILK

From Milking Time to Drinking Time Scott-Powell Milk is kept in glass

Our fleet of new glass-lined wonder trucks shortens the distance between the farm and our Philadelphia Dairies, and enables us to deliver to your doorstep milk that is "Fresher by a Day."
