**BURTON TELLS WHY ALLIES SHOULD PAY**

Reputation of Debts to America Would Create Distrust, He Says  
**U. S. TAXES ALREADY HEAVY**

London, Sept. 25. The reputation of the people of the United States as to their payment of the unpaid debts owing to America, Representative Thomas E. Burton, of Ohio, declared today at a luncheon given by the American Chamber of Commerce. Mr. Burton, who emphasized his speaking as an individual and not a member of the American Debt Recovery Commission, said he was a "strong supporter" of the American Chamber of Commerce and its policy of "no more loans" to the Allies.

**Are you using today what belongs to tomorrow?**

In the morning—when you're fresh and fit—you meet every demand easily. How are you working when four o'clock comes?  
Are you still fresh—or have you begun to draw on the reserves no man dares touch too often? Are you using today the energy that belongs to tomorrow?  
Scientists tell us that every healthy man starts the morning with energy enough to last him through the day—but he must use it properly and guard against leakage and waste.

standy on his feet all day he used to find himself each night with no energy left—and a backache in the bargain.  
One day instead of standing on the hard floor he stood on a rubber mat. The effect astonished him. He felt better that night than he had in weeks. Next day he cut two pieces of rubber from the mat and fastened them to the heels of his shoes.  
And that was the beginning of the idea that resulted in O'Sullivan's Heels!

**The waste that most men think they've stopped**  
Thousands of men and women have learned that one sure loss of energy comes from walking and standing on hard heels. They wear rubber heels to relieve this drain on their strength.  
Twenty-five years ago a man hit on this idea by accident. Working con-

**Look at your heels!**  
Like all good things, O'Sullivan's Heels have been widely imitated. Are yours O'Sullivan's? If they're not—ask your repairman for O'Sullivan's next time! O'Sullivan's usually cost you no more than ordinary rubber heels. But notice the difference at the end of each day!  
You'll understand then why millions of men and women today don't just "wear rubber heels"—they insist on O'Sullivan's!

This diagram shows how the average man's energy falls. Do you go down so far each day toward exhaustion?
