

### APPEAL FORECAST IN STILLMAN CASE

Counsel for Banker Planning to  
Take Divorce Ruling to  
Higher Court

### WIFE SEEKS JUDGMENT

New York, Oct. 3.—It was reported today that counsel for James A. Stillman would endeavor to have the referee's report set aside and that if this were denied there would be an appeal to the Appellate Division and that the case might be carried to the Court of Appeals.

At the office of Delancey Nicoll, counsel for Mr. Stillman, it was said today that the decision of Justice Morschauer applied to one of three separate motions applied to by the referee. One of these dealt with confirmation of the referee's report and it was upon this that Justice Morschauer ruled.

The other two motions, it was pointed out, have to do with confirming judgment and will be argued respectively before Justice Morschauer at White Plains on Saturday and before the Justices who may be sitting in Nyack on Saturday. No confusion or contradiction exists in these various routine legal moves, the attorneys said.

John F. Brennan, chief counsel for Mrs. Stillman, yesterday obtained an order from Justice Morschauer, returnable before him, requiring Mr. Stillman's lawyers to show cause why the report of Referee Daniel J. Gleason should not be confirmed and judgment entered in her favor.

The motion is virtually regarded as Mrs. Stillman's final victory have been deluged with telegrams and congratulations from all over the country. This includes the referee, Mr. Mack and Mr. Brennan. Most of these are from women.

Lawyers for Mrs. Stillman regard this as a sure indication that the public is with Mrs. Stillman in what she heard of the report that it was a vindication for mothers for the rights of their children, and it is now announced that should Mr. Stillman's lawyers appeal from decision in Justice Morschauer they will demand a trial by jury. This trial would necessarily have to take place at Carmel, N. Y., where the action by Mr. Stillman was started.

Three Rivers, Que., Oct. 3.—(By A. P.)—Baby Guy Stillman, son of the millionaire banker, of New York, who recently started from an attack of high fever, is now out of danger, according to information received over the long distance wire from Grande Pines last night.

Harriet Craher's Will Probated  
The will of Harriet S. Craher, who died in Atlantic City, and Clara A. Seidle, 863 North Sixth street, were admitted to probate today. The former left an estate valued at \$29,300, while the latter's is estimated to be worth \$11,307. Inventories were filed in the personal estates of James Eulen, \$75,425.45; William J. McGinnis, \$14,453.10; Mary D. Hagen, \$25,492.22; Albert Schmidt, \$5,715.70; and Elizabeth C. Green, \$28,285.30.

Photographs of extraordinary events, from great scenic panoramas, from every quarter of the globe, are printed every week in soft, artistic tones, in the Reducible Section of the Sunday Public Ledger. It's a Habit.—Advt.

### FIRE PREVENTION TALKS CONTINUE HERE TODAY

School Children and Factories Hear Experts

Talks on fire prevention were resumed today in various public schools and factories throughout the city as part of Philadelphia's program in the national celebration of "Fire Prevention Week."

Mayor Moore has issued a proclamation calling upon all citizens to observe National Fire Prevention Day, October 9. He quotes statistics to show that as a result of 5000 fires in 1921 twenty-one lives were lost, and Philadelphia's contribution to the \$500,000,000 annual fire waste bill in the United States was \$6,000,000. Seventy-five per cent of the fires, he points out, were the result of carelessness and dirt.

### NEW RADIO STATION OPENS

Concert at Gimbel's Tonight May Be Heard at the Coast

The new radio broadcasting station of the Gimbel store will open this evening with a concert which if weather conditions are favorable will probably be heard at the Coast.

The station has been built under the supervision of C. W. Cunningham and J. F. Bard, Western Electric engineers, and M. A. Wyzant, P. C. Evans, John B. George and H. Elhart, Gimbel engineers. The new apparatus is as large as the one which is used to broadcast across the Atlantic Ocean.

Noted violinists and pianists and vocal artists will perform tonight and speeches will be made by Henry M. Neely of the EVENING PUBLIC LEDGER, and Cullen Cain, of the PUBLIC LEDGER.

There are four tickers by the apparatus, and beginning with next week the station will broadcast the World Series by play. Any one who has a radio set can follow the game.

The station is located on the seventh floor of the store, and has been built with glass partitions so that the public may watch the operators at work.

The Gimbel instrument has a range of 100 miles.

### PLAN RUBBISH DESTRUCTOR

City to Replace Dumps With Model Beauty Spots

A rubbish destructor plant, surrounded by wide lawns and flower beds is to be built by the city at G street and Rannona avenue.

The plant, modeled after the municipal rubbish destructor at Toronto, will cost \$300,000, and will be in operation about July 1 of next year. It will reduce to ashes about 275 tons of rubbish every sixteen hours.

### Orders to Rush Construction of the

plant, designed to serve the northern district, were issued by Director Caven immediately on his return from Toronto. He viewed the plants there and in Montreal in company with Richard Weglein, president of Council, and Chief Dunlap of the Highway Bureau.

"A destructor plant should not be objectionable," said Director Caven.

### DREAMS OF ROBBER, WAKES TO SEE ONE

'Get Me Money and Get It Quick,' Woman Is Ordered as Pistol Presses Her Cheek

### SHE SCREAMS; THREATENED

Mrs. Mary Yonkovic, 114 Green street, awakened suddenly from a dream in which she was "kidnapped" by robbers, about 4:30 o'clock this morning, only to feel the pressure of a pistol against her face.

She saw a Negro, about twenty years old, nearly 6 feet tall, and dressed in dark clothes and cap. His face was covered by a large handkerchief.

"Get me some money, and get it quick," he commanded, as he pressed the pistol into her cheek.

Not yet sure she wasn't dreaming, the girl lay still and began to moan.

"Cut that out or I'll kill you with lead," came the warning. At the same time the robber grasped the girl's hand and told her to get out of bed.

As the intruder stood alongside her, Mrs. Yonkovic put on a dressing gown and made as if to look for a pair of slippers. As she stooped beneath the bed the robber pressed the muzzle of the revolver against her back.

"If you don't hurry I'll crack your skull with this gun," he said. "Get a move on and open the bureau drawers. You know where the valuables are."

Mrs. Yonkovic walked to the bureau and took \$18 from the top drawer. At the same time, risking detection by the thief, the girl gathered up several pieces

of jewelry, and slipped them into her slippers.

She handed the money over to the robber with the assertion that there was nothing else of value in the house. The intruder glared at her suspiciously, replaced the revolver in his coat pocket and disappeared from her room toward the first floor.

Mrs. Yonkovic screamed and attracted other members of the family who were sleeping in adjoining rooms. They immediately started in pursuit of the robber, who escaped through a rear door and ran through an alley to Second street.

Police of the Third street and Fairmount avenue station were notified and a dragnet was spread for the thief, but he is believed to have jumped on a passing truck.

**ESTEY, The Home Piano of a Lifetime**

When you are getting a piano, get a good one. It is true economy. A good, well-established make of piano naturally costs a little more in the beginning than one of unknown character, but is far less expensive when the initial outlay is spread over its many more years of service.

In this respect the ESTEY costs but very little. There are hundreds of ESTEY pianos in daily use that have seen continuous service for twenty-five or thirty years. When you come to apportion the first cost over all these years you find that these pianos have proved to be very farsighted purchases on the part of their owners.

The ESTEY is a lifetime piano. It is a piano of complete satisfaction. Once placed in your home, an ESTEY will be a lifelong pride and joy—an investment you will never cease to praise.

Wells-McGinnon Reproducing Pianos, Player-Pianos and Victor Victrolas, Saxophone Talking Machines, Cheney Art Photographs and Victor Records.

ESTEY—best known musical name in the world. More than half a million pianos and organs have been made and are in use in every country on the globe.
