

COUNCILMEN SHY AT \$7,000,000 LOAN

Weglein and Gaffney Assert Repaving Is Only Project to Be Pushed Now

City Council leaders today looked with disfavor on the proposal to float a \$7,000,000 bond issue to finance municipal construction work next year. Directors of city departments yesterday submitted to Mayor Moore loan suggestions which would total \$7,000,000. They include funds for repaving, sewer disposal and the water supply.

Richard Weglein, president of Council, said today that not less than \$5,000,000 should be borrowed on a short-term basis for repaving work next year.

Repaving is popular, it prevents a lot of damage suits and it is economical in the long run," he said. "And, of course, everybody expects the city to maintain in its entirety. It is understood they are principally opposed to the dry plank of the Forester, and also to his intention to throw the light on mismanagement at City-County Building."

Senator Leslie was one of the Organization group which opposed Mr. Pinchot in the primary election.

Chairman Gaffney, of Council's Finance Committee, said that so far as he is concerned, the only things that will be taken care of by councilmenic loans are the repaving program and the city's share of Delaware River Bridge construction.

Mr. Weglein and Mr. Gaffney agreed that an electoral loan, that is one authorized by vote of the people, is now out of the question. The councilmanic borrowing capacity is approximately \$5,000,000 and will amount to approximately \$10,800,000 next year.

Organization Looks for Governor's Support, Says Harry A. Mackey

Harry A. Mackey, chairman of the Workers' Compensation Board, and Vice leader of the Forty-sixth Ward, told an audience of organization men and women last night that the organization expected help from Senators Pennington and Reed and Gifford Pinchot in the fight to win the mayoralty next year.

Mackey spoke at the first fall meeting of the Woman's Republican Club, of Pennsylvania, at the headquarters of the Vore City Committee, Eleventh and Chestnut streets.

"This is the most crucial time in our political history since the election of President Harding," Mackey asserted. "We are facing a new era in politics, where men of the highest type are coming forward to be the servants of the people. We are going out to support the full Republican ticket at the election, but we expect the same support from them in the next mayoralty fight that we are now giving them."

OPPOSE PINCHOT PROGRAM

Allegheny County Candidates Object to Forester's Dry Plank

Gifford Pinchot, Republican nominee for Governor, met the first opposition of any consequence to his legislative program when he interviewed Allegheny County candidates for the State Legislature.

This was made known today in a statement issued by the Forester after he had conferred with nineteen legislative candidates yesterday and last night.

The chief opposition came from Senator Max G. Leslie and his friends, who refused to subscribe to the Pinchot plank in its entirety. It is understood they are principally opposed to the dry plank of the Forester, and also to his intention to throw the light on mismanagement at City-County Building.

Senator Leslie was one of the Organization group which opposed Mr. Pinchot in the primary election.

HITS STATE TAXATION

Unjust Burden on Real Estate, Declares Candidate McSparran

Preparatory to coming to Philadelphia for waging his campaign here and in the surrounding community this week, John A. McSparran and his party of Democratic standard bearers met in front of the City-County Building in Pittsburgh yesterday. The Democratic nominee for Governor again assailed his opponent, Gifford Pinchot, for not coming out with a definite stand on the paramount issues of the campaign.

Mr. McSparran said much about the tax question as it concerns the city dweller. He declared that the mounting costs of the operation of the Government at Harrisburg have resulted in the heaviest imposts in the history of the State.

Abbotts milk has been kept pure from its very source, and both its absolute purity and unvarying richness is definitely verified every day in our laboratories.

An ever growing army of people are insisting upon this definite standard of purity—milk as Nature intended it.

Abbotts "A" MILK

Its known value inspires confidence in Cadillac Owners

THE supreme confidence with which Cadillac owners regard their cars is a logical outgrowth of at least four definite factors.

In the first place, Cadillac dependability has been demonstrated over a period of years. This dependability is something more than is generally included in the meaning of the word. It embraces a degree of constant, unimpaired performance that has placed Cadillac in a distinct and separate class.

Secondly, Cadillac owners realize that in every new model this Cadillac dependability finds an even fuller expression. Type 61 represents the highest attainment Cadillac has thus far achieved.

Then, again, they know that leading automotive engineers in Europe and America have stated without reserve that Cadillac stands supreme as the world's leading motor car value.

Lastly and of equal importance to Cadillac owners is the fact that the American public by an overwhelming majority has conceded leadership to Cadillac. More Type 61 cars have been sold this year than all other cars combined selling at the Cadillac price or higher.

In view of these known facts, combined with their personal experience, could it be expected that owners would have other than the deepest confidence in their Cadillacs
