

**WATER HITS
MANAYUNK MILLS**

Shifts Forced to Close to Enable Plants to Work in Daytime

GREAT FRESHET RECALLED

Mills along the Manayunk Canal...
The water was so low at Shawmont that you could see the boy running frantically about the deck. The boat crashed into the old Green Lane bridge, a covered walkway with windows, and tilted up on one end. The boy, I recall, tried to climb up to the bridge but couldn't make it. People watched him, but no one could get near enough to help. The bridge came down and the boat turned over. The boy was drowned.
Just the other day, when the water was so low at Shawmont that you could walk across on the bottom, the pumps of the old bridge piers could be seen. It was the first time in a long while they were uncovered.
The weather-wise among the folks of Manayunk look for rain and better conditions about the middle of the month, when the equinoctial storms traditionally set in.

MAY DEFER DEBT PARLEY
Brussels, Oct. 6. — (By A. P.)
The possibility of convoking an inter-

national conference on inter-allied debts and reparations for next year is being considered in Belgium, as there is growing pessimism regarding the advisability of trying to hold one this year. Premier Theunis would prefer not to convocate the conference in the near future if there was risk of failure.

WALK-OVER

Once it was "price" Now it's service

"How much?" used to be the thing you'd consider first in a pair of shoes.

It's still important, but not the main argument for a shoe.

Good judgment goes beyond the pocketbook.

It considers the fit and the wear, and then the price.

The most valuable thing in a shoe, you cannot see at all.

When you buy a Walk-Over, you're getting a shoe that has stood the test of hard times and good times for 48 years. It is known for its good, faithful service.

All the fine leathers the world affords.
