

MINING MEN WANT LESS U. S. EXPENSE

Congress Would Reduce Federal Costs to Curtail High Taxation

ECONOMIES ARE STRESSED

Cleveland, Oct. 12.—Reduction in Government expenses as a means of curtailing the high taxes of the National and State Governments was asked by a resolution presented to the American mining congress in session here today.

The resolution declared that "expenditures of our Government can and should be materially reduced by conforming with expenditures as are necessary to the minimum called for by sound common sense and business principles," and asked all citizens to give support to legislators, officials and other citizens who are striving to effect economies in Government expenditures. Another resolution expected to come before today's sessions was one presented yesterday by Charles E. Maurer, of Cleveland, vice president of the congress, urging the congress to vote as being unlawful strikes or lock-outs in essential industries. Mr. Maurer, himself a coal operator and long a representative of the owners on wage scale committees negotiating with the United Mine Workers of America, introduced the resolution after an address in which he predicted another coal strike at the expiration of the working agreement between operators and the union March 31, 1923.

In the most sensational address of the week Mr. Maurer told the delegates that coal prices next April would be as low as those at the same time this year and predicted that the miners' union would again refuse to accept a wage reduction without a fight.

Relations with the union had been satisfactory up to 1916, Mr. Maurer asserted, but since that time no agreement has been kept by the miners. Previous to Mr. Maurer's address, James A. Emery, of Washington, counsel for the National Association of Manufacturers, demanded that the coal industry "clean house."

Standardizing methods, machinery for mining enterprises, report of the Committee on Resolutions and Joint Committee reports were to be discussed by today's congress.

SCHOOLS TO GET \$8,300,000

Lewis Draws Warrants on Treasury for August Allotment

Harrisburg, Oct. 12.—Warrants for payments to school districts of Pennsylvania of more than \$8,300,000 of the August 1 allotment have been sent to the State Treasury by Samuel S. Lewis, Auditor General. About \$20,000 now in process of correction will be sent in a few days. According to State Treasury figures, there still is due districts \$2,290,102.73 from the February 1 allotment, making more than \$10,000,000 due the school districts.

Treasury figures show that of the February 1 allotment due, \$976,650 is for Philadelphia, \$396,450 for Pittsburgh and the remainder to eighteen second and third class cities.

ALEXANDER'S MARRIAGE VALID

Athens, Oct. 12.—(By A. P.)—A royal decree published in the Official Gazette recognizes as valid the marriage of the late King Alexander and Mrs. Assoulin Manos. By virtue of the decree, King Alexander's child, Alexandra Sophie, has no rights to the throne, but becomes the legal heir of the deceased King and is entitled to an annuity, or allowance, for maintenance out of the public revenues.

SINCLAIR OIL COMPANY MAY DRILL NEXT JUNE

Operations at Saghalin Will Be on an Extensive Scale

Peking, Oct. 12.—Climatic conditions are sufficient to prevent the Sinclair Oil Company from starting operations in Saghalin prior to next June, but there is likelihood a prospecting party may be sent to the island then.

It has long been believed Northern Saghalin possessed extensive oil resources along the eastern coast, but it has never been definitely proved. It is impossible to develop the field except on an extensive scale, which only a large company could handle. It would be necessary also to develop a port on the west coast, which alone offers such opportunity.

It was learned authoritatively that the Sinclair Company began the negotiations which led to the granting of the concession before the Nikolievsk tragedy and that the concession actually was signed last spring.
